How to ACCESS Student resources

Tougaloo Email
1. Enter the following URL in your web browser: http://webmail.tougaloo.edu
2. Enter your user name in the **Username** box.
3. Enter your password in the **Password** box. *(The password is case sensitive.)*
4. Click the **Login** button.

Note: Your username is your first initial + last name. In cases where there are duplicates, your username will include your middle initial or will be followed by a number (i.e. jsmith, jsmith2, or jrsmith). Your default password is your student ID number. (i.e. SM0025325) ***You can use your Tougaloo email login to access the Computer Labs on campus.***

Moodle
1. Enter the following URL in your web browser: http://moodle.tougaloo.edu
2. Enter your user name in the **Username** box.
3. Enter your password in the **Password** box. *(The password is case sensitive.)*
4. Click the **Login** button.

Note: Your username and password are the same as your Tougaloo email log in. If you change your Tougaloo Network/Email password, your Moodle password will change as well.

STARS
1. Enter the following URL in your web browser: http://stars.tougaloo.edu
2. Click the **Student Login** button.
3. Enter your Tougaloo student ID number *(All student ID numbers are two letters followed by seven numbers, SM0025325).*
4. Enter your password in the **Password** box. *(The default password is your birthday in six numbers. For example, January 5, 1987 would be "010587". You must change the password after your first login. Change it to a password you can easily remember!)*
5. Click the **Login** button.

Having trouble logging in?
- Make sure you are entering your password correctly. <u>ALL</u> Student ID's begin with two capital letters. The letters in your ID <u>MUST</u> be capitalized!
- Try clicking the "Forgot password?" link. This will then email your password to your Tougaloo email account.
- If you still have problems accessing Moodle, visit the Office of Information Technology or call **601-977-7822**.

Please write your username and passwords here and store them in a safe and private place:
