

Be part of the

Cleveland Clinic Center for Reproductive Medicine 2015 Summer Internship June 15 to July 31, 2015

The 8th Annual Summer Mentorship Course in
"Reproductive Medicine and Research"

Gain priceless research experience under
the guidance of world-renowned experts in
**reproductive medicine, male fertility,
and women's health**
at the Cleveland Clinic

Make this a summer to remember!

2014 Invited Faculty

Dolores Lamb, PhD,
Professor of Urology, Baylor School of
Medicine, Houston, Texas

Zsolt Peter Nagy, MD, PhD,
Director, Reproductive Biology Associates,
Atlanta, Georgia

The Center for Reproductive Medicine

The Center for Reproductive Medicine is a part of the Glickman Urological and Kidney Institute of the Cleveland Clinic. The Department of Urology is ranked as the No. 1 Urology program in the nation by *U.S. News & World Report*.

The Center for Reproductive Medicine enjoys an international reputation for excellence and innovation in human infertility research and is dedicated to disseminating its results. Research papers from the Center staff are selected regularly for publication in distinguished medical journals. The Center's website has been ranked No. 1 for research in reproductive medicine and andrology since 2001 by all top five international search engines, including Google, Yahoo and Ask.com. It has attracted over 896,157 visitors from all over the world.

More than 500 physicians and scientists from more than 50 countries have received their training at the Center for Reproductive Medicine during the past 21 years. Nearly 140 students in majors ranging from biology to English to the musical arts have participated in summer internships at our Center.

To learn more about our Summer Internship Course, including program faculty, internship syllabus daily schedule, complete project listing, internship awards, pictures of interns' presentations, reception banquet, multimedia feedback, and accommodation options, please visit our [2014 Summer Mentorship webpage](#).

The Cleveland Clinic's Center for Reproductive Medicine gives you a unique opportunity to:

- **Receive** mentoring by world-renowned faculty in medicine and health sciences
- **Participate** in meaningful, real-time bench research experience
- **Engage** in intensive training in scientific writing
- **Publish** research articles in prestigious medical journals
- **Listen** to captivating lectures delivered by a team of reputed scientists and physicians

Faculty

Program Director

Ashok Agarwal, PhD
Professor, Lerner College
of Medicine
Director, Center for
Reproductive Medicine
Director, Andrology Center
Department of Urology
Cleveland Clinic

Coordinators

Rakesh Sharma, PhD
Associate Professor,
Department of Urology
Research Coordinator, Center
for Reproductive Medicine
Cleveland Clinic

Sajal Gupta, MD
Assistant Professor,
Department of Urology
Assistant Research
Coordinator, Center for
Reproductive Medicine
Cleveland Clinic

Consultants

Sijo Parekattil, MD
Co-Director of Personalized
Urology and Robotics Clinic
South Lake Hospital and
Orlando Health
Clermont, Florida

Botros Rizk, MD, PhD
Professor of Ob-Gyn
Reprod Endocrinol & Infertility
University of South Alabama
Mobile, Alabama

Bench Research Session

The Research is the Difference

The Summer Internship in the Center for Reproductive Medicine delivers a unique, intensive bench research experience that will give you a lifelong foundation of skills — and look great on your resume!

As a Summer Intern, you will select a research project to work on from a list of several bench experiments in reproductive biology. Sample projects from the 2014 Summer Mentorship program include:

- Abstinence Time and Its Impact on Semen Parameters
- Standardization of the TUNEL Assay Utilizing the BD Accuri C6 Flow Cytometer for Assessment of Sperm DNA Fragmentation
- Impact of A Precise Modulation of Reactive Oxygen Species Levels on Spermatozoa in Infertile Men
- Spermatozoa Protein Examination in Testicular Cancer Patients

To view the Internship Manual each intern receives during orientation, [click here](#). The manual contains a thorough description of all planned bench projects available for selection.

As an Intern, you will work on a research project alongside a team of other Summer Interns under the direction of a reproductive biologist. At the end of the program, you will prepare and deliver a presentation about your research project to your fellow interns and medical staff.

Never worked in a scientific research laboratory before? Our staff will teach you everything you need to know to have a successful research experience, from sample preparation to data recording. This invaluable experience will give you a competitive edge whether you are planning to apply to medical school, pursue a career in research, or just want to excel in your college science labs.

Learn How to Write It Right

Being able to write a sound scientific paper is a specialized skill that can help you succeed in your future endeavors. As part of your Summer Intern experience, you

will select a subject to write about from a list of about two dozen exciting topics. In the past Mentorship programs, Interns have had the opportunity to write on topics such as:

- Post Translational Modification of the Sperm Cell Proteome
- ROS-Causing Protein Modifications in Spermatozoa and Seminal Fluid
- DNA Repair Defects and Male Infertility
- Predictive Role of Proteomic Profiles in Assisted Reproduction
- Male Reproductive Cancers and Infertility: A Mutual Relationship

You will learn the tools and techniques of scientific writing from a Cleveland Clinic expert, then apply what you've learned to create a research article or book chapter. With the assistance of your staff Mentor, you will go through all the steps of preparing an article or chapter for submission to a prestigious medical journal or book. When your manuscript is ready, you will actually participate in the submission process — and your name will appear as a co-author on the finished manuscript!

To view research publications from past interns, please visit our publications page and on Research Gate.

Hanna Tadros, recipient of 2014 Best Intern Award (First Place)

APPLY NOW!

- A limited number of internship positions are available.
- A total of 25 interns were selected from a pool of 400 applicants for the 2014 Summer Mentorship.
- Only the most qualified applicants will be considered. International candidates are welcome to apply.
- Application deadline: **March 1, 2015**
- For more information on applying for the 2015 Summer Mentorship, please [click here](#).

About Cleveland Clinic

Glickman Urological Institute Tower (Left)

Cleveland Clinic is ranked as one of America's Top 4 Hospitals by *U.S. News & World Report*. Located in Cleveland, Ohio, Cleveland Clinic is a non-profit, multispecialty academic medical

center that integrates clinical and hospital care with research and education. Founded in 1921 by four renowned physicians with a vision of providing outstanding patient care based upon the principles of cooperation, compassion and innovation, it is the second largest group practice in the world with 3,200 physicians and scientists practicing and researching in more than 130 medical specialties and more than 1,450 beds. In addition to the main hospital located near Cleveland's historic University Circle, the Cleveland Clinic operates nine regional hospitals, a children's hospital, and 17 family health centers in Ohio, as well as hospitals in Florida, Las Vegas, Canada, and Abu Dhabi, employing more than 43,000 individuals and providing global worldclass medical care. Last year alone, 5.5 million patients from over 130 countries and all 50 states received their care at Cleveland Clinic.

The main hospital campus, located near downtown Cleveland, occupies 180 acres and 50 buildings. It includes a hospital, an outpatient clinic, a children's hospital, cancer institute, eye institute, research institute, a medical school, and supporting labs and facilities.

Here's what our intern alumni had to say about their summer experience ...

"While at Cleveland Clinic I had the opportunity to work on a review paper about research in adolescent PCOS, research on current trends in blastocyst vitrification and blastocyst biopsy and work on a lab experiment involving sperm and glutathione. The schedule provided an excellent balance of lectures and work time. I highly recommend this internship to other students looking for this type of experience."

Dinah Chen, Princeton University | 2008 Best Intern Award, 1st Place

"The summer internship was extremely helpful in advancing my scientific knowledge and skills. It significantly improved my public speaking skills and my confidence in being able to write a high-quality research article. The daily mentoring and supervision from the staff members were excellent. I would highly recommend this program."

Kathryn O'Flynn O'Brien, University of Pennsylvania
2008 Best Presentation Award, 1st Place

"The program included an impressive amount of opportunities, including writing research paper(s), attending more than 100 lectures, lab tours and demonstrations, shadowing physicians and scientists, and observing bench research. Most importantly, the program provided me the opportunity to write a review article and have it published in a prominent journal. The support and encouragement from everyone was beyond my expectations. The research experience has me considering the possibility of future research in clinical medicine and becoming a writer, something I never considered because I did not believe I had the necessary skills."

Kim Ly, University of North Texas | 2009 Best Intern Award, 1st place

"Cleveland Clinic's Center for Reproductive Medicine Research Summer Internship was an insightful and invaluable experience. I enjoyed learning from world-renowned scientists, researchers and physicians, and I appreciated their dedicated, helpful and caring attitude towards each student. This one-on-one aspect defined the outstanding nature of this experience. The program dramatically helped increase my knowledge in regards to fertility, reproduction, urology and medical research, heightening my interest in these fields. From working closely with the staff to the exceptional research opportunities, it was an amazing learning experience. The staff and prestigious name of the Cleveland Clinic make it an invaluable opportunity that should be experienced by any aspiring medical professional."

Brandon JD Rein, Ohio University College of Osteopathic Medicine
2009 Best Presentation Award, 1st place

"The Center for Reproductive Medicine program is unrivaled in terms of quality and intensity of research, amiable environment and professionalism. The program offers experience in writing research papers, attending insightful lectures, observing lab tours and demonstrations, shadowing physicians and scientists and participating in bench research. The support and encouragement from the entire staff and visiting mentors exceeded my expectations and contributed significantly to my motivation to become actively involved. The skills and knowledge gained at Cleveland Clinic has provided me with the experience needed for future research in clinical medicine as an academician, physician and writer."

Anthony Kashou, Binghamton University
2010 Best Intern Award, 1st place

"The skills I have learned both on the bench and as a scientific writer from the summer internship program have already helped me immensely in my classes this semester. My professors are just so impressed with how comfortable I am to be working in the lab! The mentoring I received this past summer is by far the best and most intensive I have received up to this point in my career. Through your guidance and the guidance of the other mentors, I now feel more prepared for my future plans in medicine."

Alexandra Below, University of Notre Dame
2011 Best Intern Award, 2nd place

"My experience with the Center for Reproductive Medicine Summer Internship Course was truly invaluable. With a plethora of mentors, medical experts, and other talented and brilliant students at my fingertips, I had an impressive arsenal of resources to conduct both laboratory and literature research. Not only did the extensive exposure to these research opportunities prepare me for a potential career in medicine, but they also strengthened my collaboration, communication, and dedication skills - assets that are pertinent for any future career. I highly recommend this program, and this is truly a one-of-a-kind opportunity that you don't want to pass up!"

Ethan Vargo, Miami University, OH
2012 Best Presentation Award, 1st Place

"Thank you for the opportunity to be a part of the best internship ever. I will always cherish all the best times I had with other interns and mentors. I completely enjoyed working with world-renowned scientists. It was not only helpful in advancing my scientific knowledge and skills but it significantly boosted my confidence in public speaking and improved my writing skills. The support and encouragement from interns and mentors were beyond my expectations. It was truly the best experience of my life - an insightful and invaluable experience. I wish the internship could have lasted longer."

Gurpriya Tina Virk, Monash University, Melbourne, Australia
2013 Mentors Choice Award for Bench Project and Award of Excellence for Professionalism

"My biggest fear prior to the Internship was that I was somehow inadequate. My worries melted away when I arrived because this program allows for everyone to be on the same page. The Internship tested our intelligence and dedication. We were guided in learning cutting edge research and the complexities of scientific writing. I am very appreciative to all of our phenomenal Mentors, who painstakingly listened to every question and went above and beyond to help us in our times of need. Overall, I believe that this program has given all of us an opportunity to grow. As a result, we have met new people, had new experiences, and incorporated our newfound wisdom into our lives and hopefully made ourselves better people. The combination of things I learned at the program truly makes it a unique program. It is multifaceted and thus a valuable asset to any career path."

Julia Tsinberg, University of Michigan, Ann Arbor, MI
