Any inconsistency between the original printed document and the disk or electronic document shall be resolved by giving precedence to the printed document.

Eligible Applicants

Others (see text field entitled “Additional Information on Eligibility” for clarification)

Additional Information on Eligibility:

See Section III of the announcement for additional eligibility information.

Agency Name

Environmental Protection Agency

Description

This notice announces the availability of funds and solicits proposals for projects that will...
provide key audiences with an opportunity to attain a greater understanding of Toxics Release Inventory (TRI) data and other related toxic chemical information. This announcement is consistent with the purpose of TRI as stated in the Emergency Planning and Community Right to Know Act (EPCRA) 42 U.S.C. 11023 which is to provide the public and local governments with information concerning potential chemical hazards present in their communities. EPA believes that an important way to promote greater awareness, understanding and use of the TRI data and other related information is to provide financial assistance for a project to increase awareness of that information among new audiences and through new avenues.

Link to Additional Information

Increasing Community Awareness and Use of Environmental Information through Education and Outreach
