The Howard Hughes Medical Institute Scholarship Program is for Tougaloo undergraduates who are pursuing a major in a science or mathematics field and includes a four-year research-intensive curriculum for Tougaloo College undergraduates who intend to pursue a career in research.

Tougaloo’s main HHMI-supported program is our HHMI Scholars program. This program provides strong mentoring, advanced coursework, and extensive undergraduate research opportunities in the sciences. The HHMI Scholars program utilizes the cooperative efforts of research scientists in the fields of biology, chemistry, computer science, mathematics, and physics. Tougaloo students with strong academic backgrounds and substantial commitment to the pursuit of a career in biomedical research and/or teaching are encouraged to apply. HHMI Scholars will work with faculty mentors in active research and will be presenting their work with mentors at professional meetings and publishing in peer-reviewed journals.

Scholar I: STEM major (Sophomore, Junior or Senior) will receive a maximum of $7,000 college scholarship per academic year with a maximum of two years. The Scholar I will be eligible to apply for in-house funding for mentored summer research (a stipend of $3,600).

QUALIFICATIONS:
- Full-time pursuit of a major in Biology, Chemistry, Computer Science, Mathematics or Physics
- Maintain a minimum college GPA of 3.0 STEM GPA; 3.2 Overall GPA
- Complete an HHMI Scholar application including two letters of recommendation; one NSD faculty
- Provide a two page essay on student’s career goals
- Current Resume

Scholar II: STEM major (Sophomore, Junior, and Senior) will receive a maximum of $7,000 college scholarship per academic year with a maximum of two years. The Scholar II will be eligible to apply for Scholar I status when OVERALL GPA reaches 3.20

QUALIFICATIONS: As above with the exceptions of
- Maintain a minimum college GPA of 3.0 STEM GPA; 3.0 Overall GPA

Scholar III is for freshmen with a Composite ACT score of 18 and a high school GPA of 3.5 out of 4.0. The Scholar III will receive a maximum of $500 for college textbooks per semester for one academic year. Scholar III is eligible to apply for other Scholar levels when qualified.

QUALIFICATIONS:
- Full-time pursuit of a major in Biology, Chemistry, Computer Science, Mathematics or Physics
- Minimum Composite ACT Score of 18; 3.5 of 4.0 high school GPA
- Complete an HHMI Scholar application including one letter of recommendation
- Provide a two page essay on student’s career goals
- Current Resume and High School Transcript

REQUIREMENTS IF ACCEPTED: Student MUST
- Actively participate in the Speaker Seminar Series presentations and the HHMI/S-STEM Seminar Series
- Join professional organizations in your chosen STEM field
- Meet with mentor on a regular basis as assigned
- Attend GRE training workshop; Take the GRE
- Scholar I must participate in on-campus mentored research during each academic year and apply for summer research funding each year.
- Participate in the HHMI/S-STEM Outreach Program
