

U.S. DEPARTMENT OF LABOR

Employment and Training Administration Notice of Availability of Funds and Solicitation for Grant Applications for YouthBuild Grants

Announcement Type: Initial

Funding Opportunity Number: SGA-DFA-PY-12-02

Catalog of Federal Domestic Assistance (CFDA) Number: 17.274

Key Dates: The closing date for receipt of applications under this announcement is **March 19, 2013**. Applications must be received no later than 4:00:00 p.m. Eastern Time.

Addresses: Mailed applications must be addressed to the U.S. Department of Labor, Employment and Training Administration, Office of Grants Management, Attention: Steve Rietzke, Grant Officer, Reference SGA-DFA-PY-12-02, 200 Constitution Avenue, NW, Room N4716, Washington, DC 20210. For complete application and submission information, including online application instructions, please refer to Section IV.

Summary:

The Employment and Training Administration (ETA), U.S. Department of Labor (DOL, or the Department), announces the availability of approximately \$75 million in grant funds authorized by the YouthBuild provisions of the Workforce Investment Act [29 USC 2918a]. The final amount available depends on the amount of funds appropriated for YouthBuild in Fiscal Year (FY) 2013.

YouthBuild grants will be awarded through a competitive process. Under this solicitation, DOL will award grants to organizations to oversee the provision of education, occupational skills training, and employment services to disadvantaged youth in their communities while performing meaningful work and service to their communities. Based on our estimate of FY 2013 funding, DOL hopes to serve approximately 5,200 participants during the grant period of performance, with projects operating in approximately 75 communities across the country.

I. Funding Opportunity Description

YouthBuild is a community-based alternative education program for youth between the ages of 16 and 24 who are high school dropouts, adjudicated youth, youth aging out of foster care, youth with disabilities, and other at-risk youth populations. The YouthBuild program simultaneously addresses several core issues facing low-income communities: affordable housing, education, employment, crime prevention, and leadership development. The YouthBuild model balances in-school learning and occupational skills training that prepare at-risk youth for career placement. The in-school component is an alternative education program that assists youth who are often significantly behind in basic skills to obtain the goal of a high school diploma or GED credential. The occupational skills training component prepares at risk youth to achieve the goal of career placement, and also supports the goal of increasing affordable housing

by teaching youth construction skills learned by building or significantly renovating homes for low-income or homeless families or individuals. Occupational skills training also may include other demand industries in addition to construction for grantees that have been previously funded by the Department of Labor.

The Final Rule for YouthBuild was published on February 15, 2012. This Final Rule clarifies the requirements of the YouthBuild Transfer Act for program providers and participants. The final rule sets the standards under which YouthBuild program providers can carry out the goals of the program. The Final Rule can be found at: <https://www.federalregister.gov/articles/2012/02/15/2012-2373/youthbuild-program>. For more information on the YouthBuild program, please go to: www.doleta.gov/youth_services/YouthBuild.cfm.

In order to preserve one of the core aspects of the YouthBuild program as a construction skills training program, all grant programs must offer construction skills training. New applicants for DOL funding must demonstrate success with core construction skills training and are not eligible to offer other vocational training as first-time YouthBuild grantees. Construction skills training is central to the overall philosophy of the YouthBuild program and can provide a visible transformational experience for young people who have rarely had opportunities to see tangible and positive results of their efforts.

Because one of the goals of the YouthBuild program is to provide affordable housing, all prospective applicants must demonstrate their commitment to the goal of increasing the supply of permanent housing for homeless individuals and low-income families. YouthBuild grantees must accomplish this goal by having a sufficient number of youth enrolled in and completing the construction skills training component. This component must enable the program to build or substantially renovate at least one unit of housing within the grant period of performance, and each program must have access to a work site to use for on-site construction training. All units of housing must be utilized by homeless and/or low-income individuals and families. Units include: new construction or substantial renovation of single family homes or housing units; a single unit of a condominium, townhouse, or apartment. Substantial renovation includes those activities that will provide YouthBuild participants with significant construction experience and knowledge that will prepare them for entry-level employment in the construction industry and are tied to the construction curriculum used by the program. Painting or cleaning apartments between tenants and simple weatherization tasks do not constitute substantial renovation or a sufficiently comprehensive level of construction training.

II. Award Information

A. Award Amount

Under this competition, ETA intends to fund approximately 75 grants of up to \$1.1 million each from the FY 2013 appropriation (pending availability of funding). Applicants requesting more than \$1.1 million will be deemed non-responsive and will not be reviewed. In the event that additional funds become available, ETA reserves the right to use such funds to select additional grantees from applications submitted in response to this solicitation.

The Department intends to use up to 30 percent of the total available funding for this competition for the award of grants to eligible applicants that have not previously

received a DOL YouthBuild grant. The remainder of funds will be used to award grants to eligible applicants that have been previously funded by the DOL YouthBuild program. The Department reserves the right to revise the proportions of funding for new and previously-funded applicants, depending upon the strength of applications received, the geographic balance of awards, and those that are most advantageous to the government.

The Department's intended mix of grant awards to new and previously-funded applicants will ensure that organizations that have not previously been funded by DOL for a YouthBuild grant have an opportunity to implement a new DOL YouthBuild program, while allowing for continued support to the existing universe of previously-funded YouthBuild grants with demonstrated success. Due to the complicated nature of the YouthBuild program model and the interest in expanding YouthBuild beyond construction skills training, this solicitation is focused on ensuring that an adequate number of established YouthBuild programs are funded while newly funded YouthBuild programs establish effective operation and delivery of services outlined in each of the required program components.

B. Period of Performance

The period of performance for these grant awards will be three (3) years and four (4) months from the effective date of the grant. This includes an up to four-month planning period, two years of core program operations (education, occupational skills training, and youth leadership development activities) for one or more cohorts of youth, plus an additional nine-to-twelve months of follow-up support services and tracking of participant outcomes for each cohort of youth. This grant period of performance includes time for all necessary implementation and start-up activities. Applicants must plan to fully expend grant funds during the period of performance while ensuring full transparency and accountability for all expenditures. Therefore, applicants must carefully consider their ability to spend the level of funding requested during the allotted time. Within the initial four-month planning period, grantees must achieve certain milestones which include the hiring of or committing additional core program staff, (including the Project Director, Construction Trainer(s), Classroom Teacher(s), and Case Manager(s) positions). During the planning period grantees will perfect all necessary partnerships for the successful delivery of services, initiate recruitment and outreach efforts for enrollment of participants and reconfirm worksite financing and access. Applicants must submit a timeline for completion of critical activities to be completed during the planning period, as described in Section IV. B. Part III: Attachments to Technical Proposal. Completion of these milestones within the grant's planning phase will be reviewed by the Federal Project Officer. Grantees who have not met milestones may be subject to corrective action.

III. Eligibility Information

A. Eligible Applicants

Eligible applicants for these grants are public or private non-profit agencies or organizations including agencies that have previously served at-risk youth in a YouthBuild or other similar program. These agencies include, but are not limited to:

- Faith-based and community organizations;

- An entity carrying out activities under Workforce Investment Act (WIA), such as a local workforce investment board, American Job Center (formerly known as One-Stop Career Center), or local school board;
- A community action agency;
- A state or local housing development agency;
- An Indian tribe or other agency primarily serving American Indians;
- A community development corporation;
- A state or local youth service conservation corps;
- A consortium of such agencies or organizations with a designated lead applicant; or
- Any other public or private non-profit entity that is eligible to provide education or employment training under a Federal program.

An organization (based on its Employer Identification Number), may only be awarded one grant as a result of this competition. This requirement applies to both new applicants and previously funded applicants that have received a DOL YouthBuild grant in a previous competition. In addition, grantees who received funding from the Fiscal Year (FY) 2012 YouthBuild competition [SGA/DFA PY 11-06] are funded through December 2015 and these grantees (based on its Employer Identification Number) are not eligible to participate in this competition.

B. Cost Sharing or Matching

Cost sharing is required as a condition for application. Applicants must provide new cash or in-kind resources equivalent to exactly 25 percent of the grant award amount as “matching” funds while additional cost sharing above 25 percent may be committed towards the grant as “leveraged” funds.. **Please note that neither prior investments nor Federal resources may be counted towards the matching funds threshold. Applicants that do not specify matching funds of exactly 25 percent as part of their application will be deemed non-responsive and will not be reviewed.** Construction materials that are acquired without grant funds and are used for approved projects as part of the training for YouthBuild participants may be used in fulfilling the 25 percent match requirement.

To be allowable as part of match, an expenditure must be an allowable charge for Federal grant funds. Determinations of allowable costs will be made in accordance with the applicable Federal cost principles as indicated in Section IV.E. If the cost would not be allowable as a grant-funded charge, then it cannot be counted toward the applicant’s matching funds.

Please note that in addition to the Federal amount being requested by a grantee, the matching funds must be specified on the SF-424, Application for Federal Assistance and the SF-424A, Budget Information form. The SF-424A is required even though the form states “Non-Construction Programs.” If there is a discrepancy in the amount of matching funds specified on the SF-424, SF-424A, or Budget Narrative, DOL will consider the amount of funds specified on the SF-424 as the amount of the applicant’s match.

Applicants are encouraged to leverage additional resources beyond the required match to supplement grant activities. Leveraged resources can be used to cover costs or materials that might otherwise be an unallowable charge to grant funds.

Any cash or in-kind resources committed beyond the 25 percent of the grant award amount required as matching funds must be counted and documented as leveraged funds. Applicants must clearly make the distinction between what will be considered matching funds and what will be considered "additional" leveraged resources, and explain the amount and source(s) of leveraged resources in the budget narrative separately from the explanation of the amount and source(s) of matching funds. Do not include the leveraged funds on the SF-424 or SF-424A.

Both matching funds and leveraged resources can come from a variety of sources, including but not limited to: the public sector (e.g., state or local governments); the non-profit sector (e.g., community organizations, faith-based organizations, or education and training institutions); the private sector (e.g., businesses or industry associations); the investor community (e.g., angel networks or economic development entities); and the philanthropic community (e.g., foundations).

Grantees must track and report both matching funds and other non-Federal leveraged resources quarterly on Form ETA-9130. Instructions and the form may be found at http://www.doleta.gov/grants/financial_reporting.cfm.

C. Other Eligibility Criteria

There are no other eligibility criteria for submitting an application.

D. Eligible Participants

1. Participants Eligible to Receive Training

An individual may participate in a YouthBuild program if the individual:

- a. Is between the ages of 16 and 24 on the date of enrollment; **and**
- b. Is a member of a low-income family, a youth in foster care (including youth aging out of foster care), a youth or adult offender, a youth who is an individual with a disability, a child of an incarcerated parent, a migrant youth; **and**
- c. Is a school dropout or an individual who has dropped out of high school and re-enrolled in an alternative school, if that re-enrollment is part of a sequential service strategy.

Up to, but not more than, 25 percent of the participants in the program may be youth who do not meet criteria 1.b. or 1.c. above, but they **must**:

- Be basic skills deficient, despite attainment of a secondary school diploma, GED credential, or other state-recognized equivalent (including recognized alternative standards for individuals with disabilities); or
- Have been referred by a local secondary school for participation in a YouthBuild program leading to the attainment of a secondary school diploma. Individuals referred to YouthBuild programs from secondary schools that provide only a GED certificate are not eligible participants for this grant.

2. Veterans Priority for Participants

The Jobs for Veterans Act (Public Law 107-288) requires grantees to provide priority of service for veterans and spouses of certain veterans for the receipt of employment, training, and placement services in any job training program directly funded, in whole or in part, by DOL. The regulations implementing this priority of service can be found at 20 CFR Part 1010. In circumstances where a grant recipient must choose between two qualified candidates for a service, one of whom is a veteran or eligible spouse, the veterans priority of service provisions require that the grant recipient give the veteran or eligible spouse priority of service by first providing him or her that service. To obtain priority of service, a veteran or spouse must meet the program's eligibility requirements. Grantees must comply with DOL guidance on veterans' priority. ETA's Training and Employment Guidance Letter (TEGL) No. 10-09 (issued November 10, 2009) provides guidance on implementing priority of service for veterans and eligible spouses in all qualified job training programs funded in whole or in part by DOL. TEGL No. 10-09 is available at http://wdr.doleta.gov/directives/corr_doc.cfm?DOCN=2816.

E. Other Grant Specifications

1. Transparency

DOL is committed to conducting a transparent grant award process and publicizing information about program outcomes. Posting grant applications on public websites is a means of promoting and sharing innovative ideas. For this grant competition, we will publish the Abstracts required by Section IV.B.Part IIIa, and selected information from the SF-424 for all applications on the Department's public website or similar publicly accessible location. Additionally, we will publish a version of the Technical Proposal required by Section IV.B. Part II, for all those applications that are awarded grants, on the Department's website or a similar location. No other attachments to the application will be published. The Technical Proposals and Abstracts will not be published until after the grants are announced. In addition, information about grant progress and results may also be made publicly available.

DOL recognizes that grant applications sometimes contain information that an applicant may consider proprietary or business confidential information, or may contain personally identifiable information (PII). Proprietary or business confidential information is information that is not usually disclosed outside your organization and disclosing this information is likely to cause you substantial competitive harm.

PII is any information that can be used to distinguish or trace an individual's identity, such as name, social security number, date and place of birth, mother's maiden name, or biometric records, and any other information that is linked or linkable to an individual, such as medical, educational, financial, and employment information.¹

Abstracts will be published in the form originally submitted, without any redactions. Applicants should not include any proprietary or confidential business information or PII in this summary. In the event that an applicant submits proprietary or

¹ OMB Memorandum 07-16 and 06-19. GAO Report 08-536, *Privacy: Alternatives Exist for Enhancing Protection of Personally Identifiable Information*, May 2008, <http://www.gao.gov/new.items/d08536.pdf>.

confidential business information or PII, DOL is not liable for the posting of this information contained in the Abstract. The submission of the grant application constitutes a waiver of the applicant's objection to the posting of any proprietary or confidential business information contained in the Abstract. Additionally, the applicant is responsible for obtaining all authorizations from relevant parties for publishing all PII contained within the Abstract. In the event the Abstract contains proprietary or confidential business information or PII, the applicant is presumed to have obtained all necessary authorizations to provide this information and may be liable for any improper release of this information.

By submission of this grant application, the applicant agrees to indemnify and hold harmless the United States, the U.S. Department of Labor, its officers, employees, and agents against any liability or for any loss or damages arising from this application. By such submission of this grant application, the applicant further acknowledges having the authority to execute this release of liability.

In order to ensure that proprietary or confidential business information or PII is properly protected from disclosure when DOL posts the winning Technical Proposals, applicants whose Technical Proposals will be posted will be asked to submit a second redacted version of their Technical Proposal, with any proprietary, confidential commercial/business, and PII redacted. All non-public information about the applicant's and consortium members' staff (if applicable) should be removed as well.

The Department will contact the applicants whose Technical Proposals will be published by letter or email, and provide further directions about how and when to submit the redacted version of the Technical Proposal.

Submission of a redacted version of the Technical Proposal will constitute permission by the applicant for DOL to make the redacted version publicly available. We will also assume that by submitting the redacted version of the Technical Proposal, the applicant has obtained the agreement to the applicant's decision about what material to redact of all persons and entities whose proprietary, confidential business information, or PII is contained in the Technical Proposal. If an applicant fails to provide a redacted version of the Technical Proposal within 45 days of DOL's request, DOL will publish the original Technical Proposal in full, after redacting only PII. (Note that the original, unredacted version of the Technical Proposal will remain part of the complete application package, including an applicant's proprietary and confidential business information and any PII.)

Applicants are encouraged to maximize the grant application information that will be publicly disclosed, and to exercise restraint and redact only information that clearly is proprietary, confidential commercial/business information, or PII. The redaction of entire pages or sections of the Technical Proposal is not appropriate, and will not be allowed, unless the entire portion merits such protection. Should a dispute arise about whether redactions are appropriate, DOL will follow the procedures outlined in the Department's Freedom of Information Act (FOIA) regulations (29 CFR Part 70).

Redacted information in grant applications will be protected by DOL from public disclosure in accordance with federal law, including the Trade Secrets Act (18 U.S.C. § 1905), FOIA, and the Privacy Act (5 U.S.C. § 552a). If DOL receives a FOIA request for your application, the procedures in DOL's FOIA regulations for responding to requests for commercial/business information submitted to the government will be followed, as

well as all FOIA exemptions and procedures. 29 CFR § 70.26. Consequently, it is possible that application of FOIA rules may result in release of information in response to a FOIA request that an applicant redacted in its “redacted copy.”

2. Cost per Participant

The Department expects that the annual cost-per-participant will be between \$15,000 and \$18,000, and must not be higher than \$18,000. The expected cost-per-participant is calculated by dividing the total DOL grant award by the number of participants to be enrolled.

The projected enrollment described in the application is not binding on DOL. At the time of grant award, DOL will inform grantees of expected enrollment goals, based on the cost-per-participant parameters specified above, as well as expected outcomes as determined by DOL. DOL reserves the right to set expected performance outcomes at a later date.

3. Program Safety

YouthBuild projects must follow OSHA guidelines in the operation of their construction projects and other skills training that is offered. YouthBuild grantees must submit incident reports to DOL of injuries occurring on worksites or other training venues. YouthBuild grantees must provide comprehensive, documented safety training to participants in each industry for which occupational skills training is provided. Grantees must: (a) ensure that YouthBuild participants demonstrate knowledge of and proficiency in hazard identification, abatement, and safe work practices; (b) demonstrate compliance with Federal and state child labor laws and occupational safety and health regulations; (c) provide necessary personal protective equipment to youth working on YouthBuild projects; and (d) report to DOL all worksite injuries to youth working on YouthBuild projects, along with documentation on remedial measures to prevent future similar injuries and help ensure that YouthBuild is a model program that takes active steps for participant safety and health.

4. Fair Housing

As a Federal agency, DOL has a statutory duty to affirmatively further fair housing. DOL requires the same of its funding recipients under this solicitation. Grantees will have a duty to affirmatively further fair housing opportunities for classes protected under the Fair Housing Act. Protected classes include race, color, national origin, religion, sex, disability, and familial status. The grantee must take specific steps, to:

- Overcome the effects of impediments to fair housing choice that were identified in the Analysis of Impediments (AI) to Fair Housing Choice in the community to be served;
- Remedy discrimination in housing; and
- Promote fair housing rights and fair housing choice.

5. Travel and Technical Assistance

All applicants must include in their budget funds to cover travel to DOL-sponsored technical assistance training events. Appropriate YouthBuild program staff

must attend at least three DOL-sponsored events (not to be confused with events sponsored by YouthBuild USA) for each year of program operation. This would include one national learning exchange normally offered once in the fall and once in the spring; one regional peer-to-peer training event which will be held in the city where ETA's regional office for that grantee's region is located (see <http://www.doleta.gov/regions>); and one DOL multi-site gathering. Grantees must send multiple levels of staff to specialized training that is offered either at learning exchanges or in specific training programs. These are important professional development opportunities for program staff. For example, the Department offers construction training certification several times a year in various locations across the country. In addition to sending the construction supervisor, grantees may consider sending the classroom instructor(s) as well, to create stronger connections between educational and construction components of YouthBuild programs. Funds must also be included for staff to attend Management Information System (MIS) training and grantee orientation, if needed. Applicants may also budget grant funds for participation in other non-DOL sponsored events, such as those sponsored by YouthBuild USA or other government or non-governmental entities. Travel outside of DOL-sponsored events also must be appropriate and provide a direct benefit to the program.

IV. Application and Submission Information

A. How to Obtain an Application Package

This Solicitation for Grant Applications (SGA) contains all of the information and links to forms needed to apply for grant funding.

B. Content and Form of Application Submission

Proposals submitted in response to this SGA must consist of three separate and distinct parts: (I) a cost proposal; (II) a technical proposal; and (III) attachments to the technical proposal. Applications that do not contain all of the three parts or that fail to adhere to the instructions in this section will be deemed non-responsive and will not be reviewed. It is the applicant's responsibility to ensure that the funding amount requested is consistent across all parts and sub-parts of the application.

Part I. The Cost Proposal. The Cost Proposal must include the following items:

- SF-424, "Application for Federal Assistance" (available at <http://apply07.grants.gov/apply/FormLinks?family=15>). The SF-424 must clearly identify the applicant and must be signed by an individual with authority to enter into a grant agreement. Upon confirmation of an award, the individual signing the SF-424 on behalf of the applicant shall be considered the authorized representative of the applicant. As stated in block 21 of the SF424 form, signature of the authorized representative on the SF-424 certifies that the organization is in compliance with the Assurances and Certifications form SF-424B (available at <http://apply07.grants.gov/apply/FormLinks?family=15>). The SF-424B is not required to be submitted with the application. In addition, the applicant's signature in block 21 of the SF-424 form constitutes assurance by the applicant of the following in accordance with 29 CFR 37.20:

As a condition to the award of financial assistance from the Department of Labor under Title I of WIA, the grant applicant assures that it will comply fully with the nondiscrimination and equal opportunity provisions of the following laws: Section 188 of the Workforce Investment Act of 1998 (WIA), which prohibits discrimination against all individuals in the United States on the basis of race, color, religion, sex, national origin, age, disability, political affiliation or belief, and against beneficiaries on the basis of either citizenship/status as a lawfully admitted immigrant authorized to work in the United States or participation in any WIA Title I—financially assisted program or activity; Title VI of the Civil Rights Act of 1964, as amended, which prohibits discrimination on the bases of race, color and national origin; Section 504 of the Rehabilitation Act of 1973, as amended, which prohibits discrimination against qualified individuals with disabilities; The Age Discrimination Act of 1975, as amended, which prohibits discrimination on the basis of age; and Title IX of the Education Amendments of 1972, as amended, which prohibits discrimination on the basis of sex in educational programs. The grant applicant also assures that it will comply with 29 CFR part 37 and all other regulations implementing the laws listed above. This assurance applies to the grant applicant's operation of the WIA Title I-financially assisted program or activity, and to all agreements the grant applicant makes to carry out the WIA Title I-financially assisted program or activity. The grant applicant understands that the United States has the right to seek judicial enforcement of this assurance.

All applicants for Federal grant and funding opportunities are required to have a Data Universal Numbering System (D-U-N-S®) number, and must supply their D-U-N-S® Number on the SF-424. The D-U-N-S® Number is a nine-digit identification number that uniquely identifies business entities. If you do not have a D-U-N-S® Number, you can get one for free through the D&B website: <http://fedgov.dnb.com/webform/displayHomePage.do>.

- The SF-424A Budget Information Form (available at <http://apply07.grants.gov/apply/FormLinks?family=15>). In preparing the Budget Information Form, the applicant must provide a concise narrative explanation to support the budget request, explained in detail below.
 - Budget Narrative: The budget narrative must provide a description of costs associated with each line item on the SF-424A. It should also include a description of leveraged resources provided (as applicable) to support grant activities.
 - Note that the entire Federal grant amount requested (not just one year) must be included on the SF-424 and SF-424A and budget narrative. No leveraged resources should be shown on the SF-424 and SF-424A. The amount listed on the SF-424, SF-424A and budget narrative must be the same. Please note, the funding amount included on the SF-424 will be considered the official funding amount requested if any inconsistencies are found. Applications that fail to provide an SF-424 including D-U-N-S® Number, SF-424A, and a budget narrative will be considered non-responsive and will not be reviewed.
 - Before submitting an application, applicants must register with the System for Award Management (SAM), which has replaced the Central Contractor Registry (CCR). Instructions for registering with SAM can be found at <https://www.sam.gov>. An awardee must maintain an active SAM registration with current information at all times during which it has an active Federal award or an application under consideration. To

remain registered in the SAM database after the initial registration, the applicant is required to review and update the registration at least every 12 months from the date of initial registration or subsequently update its information in the SAM database to ensure it is current, accurate and complete. For purposes of this paragraph, the applicant is the entity that meets the eligibility criteria and has the legal authority to apply and to receive the award. Failure to register with SAM and maintain an active account will result in your application being found non-responsive and not being reviewed.

Part II. The Technical Proposal. The Technical Proposal must demonstrate the applicant’s capability to implement the grant project in accordance with the provisions of this Solicitation. The guidelines for the content of the Technical Proposal are provided in Section V of this SGA. Page limits for the Technical Proposal are as follows:

- Applicants that have not previously received DOL funding for a YouthBuild program: the Technical Proposal is limited to 25 double-spaced single-sided 8.5 x 11 inch pages with 12 point text font and 1 inch margins.
- Applicants that have previously received DOL funding for YouthBuild programs: the Technical Proposal is limited to 20 double-spaced, single-sided, 8.5 x 11 inch pages with 12 point text font and 1 inch margins.

Any materials beyond the specified page limit will not be read. All applicants should number the Technical Proposal beginning with page number 1.

Part III. Attachments to the Technical Proposal. In addition to the Technical Proposal, regardless of the method of application submission (i.e., grants.gov or hard copy), the applicant must submit specific attachments. The required attachments vary depending on whether the applicant is a previously DOL-funded YouthBuild grantee or a new applicant. For a specific checklist of what attachments must be included with your application, please see Attachment A below. All attachments to the Technical Proposal should be labeled and saved with the specific names used on the checklist.

The following attachments must be submitted by all applicants, and applications that fail to include any of these attachments will be found non-responsive and will not be reviewed:

- A two-page abstract summarizing the proposed project, including applicant name, project title, whether the applicant is a new or previously DOL-funded applicant, a description of the area to be served, projected enrollment for each year, the cost per participant, the funding level requested, and the industry(ies) to be targeted by the project if the applicant is previously-funded. The abstract must note whether the application is being submitted as an urban, rural, or Native American application. If using grants.gov for submission, this document must be attached under the Mandatory Other Attachment section and labeled “Two-Page Abstract;”
- A worksite description form (ETA-9143), which is described in more detail in Part IV below; and Project/Performance Site Location(s) form (available at <http://apply07.grants.gov/apply/FormLinks?family=15>). If using grants.gov for submission, this form must be attached under the required forms section. Please note that this is a standard form used for

many programs and has a check box for applying as an individual. Disregard this box on the form as individuals are not eligible to apply for this solicitation;

Additional attachments that are required for all applicants, which may impact the scoring under Section V.A, are:

- An organizational chart, as described in V.A, which reflects how the YouthBuild program will be staffed. In instances where the YouthBuild program is part of a larger organization (e.g., a Housing Authority), applicants must include a diagram that indicates how the YouthBuild program fits within the larger organization;
- Program Calendar as described in Section V.A.2.g, which specifically includes: 1) a timeline for completing critical activities within the four month planning period (as described in Sec. II.B “ Period of Performance”); 2) the planned activities and services provided to youth over the course of one month of active participation in the program; and 3) the planned activities over the entire cycle of one cohort of youth; and
- Signed letters of commitment from partners supporting the response to Sec. V.A.2.d.

The following attachments must be submitted by all new applicants. Applications from new applicants that fail to include any of these attachments will be found non-responsive and will not be reviewed:

- Chart of past performance as described in Sec. V.C.2. “Evidence of Past Performance in a Non-DOL-funded YouthBuild or Other Relevant Program;” and
- Most recent audited financial statements and management letter as described in Sec. V.C.1. “Program Management and Organizational Capacity.”
- Training plan that lays out the capacity of the grantee to deliver the required construction training through detailed descriptions of the timing of training and roles and responsibilities of staff and partners. This training plan is limited to no more than three double-spaced pages, using the training plan template shared in Attachment B.

Only those attachments listed above will be excluded from the Technical Proposal 25-page (new applicant) and 20-page (previously-funded grantee) limits. Attachments submitted beyond those listed above will count against the page limit specified in Section IV.B.Part II. The attachments must be affixed as separate, clearly identified appendices to the application.

Applicants should not send documents separately to DOL, because these documents will not be attached to the application for review.

Part IV. The Worksite Description. A signed Worksite Description Form (ETA-9143) including all required attachments, which describes the planned worksite that will be used for on-site housing rehabilitation and construction training for youth participants must be submitted or the application will be considered non-responsive and will not be reviewed.

This form can be found at

http://www.doleta.gov/youth_services/pdf/Work_site_with_Housing_Census.xls.

Updated information on property for use in year two of the grant may be required. These forms do not count against the page limitation for the technical proposal or the technical proposal attachments. This is a separate part of the proposal. Please note that before finalization of the grant award document, and before grant funds are released, prospective award winners must be able to re-verify information about the worksite(s) and the applicant's access to the property(ies).

Section 10 of ETA-9143 requests information about the property owner or property management company or companies allowing access to the housing site(s) for on-site construction training. DOL will deem non-responsive any application that fails to specifically identify the location of the construction site(s), including evidence of site access, as requested on ETA-9143. Evidence of site access is:

- If the applicant has a contract or option to purchase the property, the application must include a copy of the contract or option; or
- If the applicant owns the property, a copy of the deed or other documentation showing proof of ownership; or
- If a third party owns the property or has a contract or option to purchase, that third party must provide a letter stating the nature of the ownership and specifically provide access to the property for the purposes of the program and the time frame in which the property will be available. In the case of a contract or option, the application must include a copy of the document.

These should be included as attachments to the Technical Proposal as described in Part III of the application and do not count against page limitations.

Please note that there is a second section of the Worksite Description Form, called the "Housing Census Form." This section does not need to be filled out at the time of application or award. This census will be required at the end of each full year of the program as a means of tracking the total units of housing completed by YouthBuild programs.

C. Submission Date, Times, Process and Addresses

The closing date for receipt of applications under this announcement is **March 19, 2013**. Applications may be submitted electronically on <http://www.grants.gov> or in hard copy by mail or hand delivery (**including overnight delivery**). Hard copy applications must be received at the address below no later than 4:00:00 p.m. Eastern Time on the closing date. Applications submitted on [grants.gov](http://www.grants.gov) must also be successfully submitted (as described below) no later than 4:00:00 p.m. Eastern Time on the closing date. Applications sent by e-mail, telegram, or facsimile (FAX) will not be accepted.

Applicants submitting proposals in hard copy must submit an original signed application (including the SF-424) and one (1) "copy-ready" version free of bindings, staples or protruding tabs to ease in the reproduction of the proposal by DOL. Applicants submitting proposals in hard copy are also required to provide an identical electronic copy of the proposal on compact disc (CD). If discrepancies between the hard copy submission and CD copy are identified, the application on the CD will be considered the

official applicant submission for evaluation purposes. Failure to provide identical applications in hardcopy and CD format may have an impact on the overall evaluation.

If an application is physically submitted by both hard copy and through <http://www.grants.gov>, a letter must accompany the hard-copy application stating which application to review. If no letter accompanies the hard copy, we will review the copy submitted through <http://www.grants.gov>.

Applications that do not meet the conditions set forth in this notice will be considered non-responsive. No exceptions to the mailing and delivery requirements set forth in this notice will be granted. Further, documents submitted separately from the application, before or after the deadline, will not be accepted as part of the application.

Mailed applications must be addressed to the U.S. Department of Labor, Employment and Training Administration, Division of Federal Assistance, Attention: Steve Rietzke, Grant Officer, Reference SGA/DFA PY 12-02, 200 Constitution Avenue, NW, Room N4716, Washington, DC 20210. Applicants are advised that mail delivery in the Washington DC area may be delayed due to mail decontamination procedures. Hand-delivered proposals will be received at the above address. All overnight mail will be considered to be hand-delivered and must be received at the designated place by the specified closing date and time.

Applications that are submitted through Grants.gov must be successfully submitted at <http://www.grants.gov> no later than 4:00:00 p.m. Eastern Time on the closing date and then subsequently validated by Grants.gov. The submission and validation process is described in more detail below. The process can be complicated and time-consuming. Applicants are strongly advised to initiate the process as soon as possible and to plan for time to resolve technical problems if necessary.

The Department strongly recommends that before the applicant begins to write the proposal, applicants should immediately initiate and complete the “Get Registered” registration steps at http://www.grants.gov/applicants/get_registered.jsp. Applicants should read through the registration process carefully before registering. These steps may take as much as four weeks to complete, and this time should be factored into plans for electronic submission in order to avoid unexpected delays that could result in the rejection of an application. The site also contains registration checklists to help you walk through the process. The Department strongly recommends that applicants download the “Organization Registration Checklist” at http://www.grants.gov/assets/Organization_Steps_Complete_Registration.pdf and prepare the information requested before beginning the registration process. Reviewing and assembling required information before beginning the registration process will alleviate last minute searches for required information and save time.

As described above, applicants must have a D-U-N-S® Number and must register with the System for Award Management (SAM).

The next step in the registration process is creating a username and password with Grants.gov to become an Authorized Organizational Representative (AOR). AORs will need to know the D-U-N-S® Number of the organization for which they will be submitting applications to complete this process. To read more detailed instructions for creating a profile on Grants.gov visit: http://www.grants.gov/applicants/org_step3.jsp.

After creating a profile on Grants.gov, the E-Biz point of Contact (E-Biz POC) - a representative from your organization who is the contact listed for SAM – will receive an

email to grant the AOR permission to submit applications on behalf of their organization. The E-Biz POC will then log in to Grants.gov and approve an applicant as the AOR, thereby giving him or her permission to submit applications. To learn more about AOR Authorization visit: http://www.grants.gov/applicants/org_step5.jsp, or to track AOR status visit: http://www.grants.gov/applicants/org_step6.jsp.

An application submitted through Grants.gov constitutes a submission as an electronically signed application. The registration and account creation with Grants.gov, with E-Biz POC approval, establishes an AOR. When you submit the application through Grants.gov, the name of your AOR on file will be inserted into the signature line of the application. Applicants must register the individual who is able to make legally binding commitments for the applicant organization as the AOR; this step is often missed and it is crucial for valid submissions.

When a registered applicant submits an application with Grants.gov, an electronic time stamp is generated within the system when the application is successfully received by Grants.gov. Within two business days of application submission, Grants.gov will send the applicant two email messages to provide the status of the application's progress through the system. The first email, sent almost immediately, will contain a tracking number and will confirm receipt of the application by Grants.gov. The second email will indicate the application has either been successfully validated or has been rejected due to errors. Grants.gov will reject applications if the applicant's SAM registration is expired. Only applications that have been successfully submitted by the deadline and subsequently successfully validated will be considered. It is the sole responsibility of the applicant to ensure a timely submission. While it is not required that an application be successfully validated before the deadline for submission, it is prudent to reserve time before the deadline in case it is necessary to resubmit an application that has not been successfully validated. Therefore, sufficient time should be allotted for submission (two business days) and, if applicable, additional time to address errors and receive validation upon resubmission (an additional two business days for each ensuing submission). It is important to note that if sufficient time is not allotted and a rejection notice is received after the due date and time, the application will not be considered.

To ensure consideration, the components of the application must be saved as .doc, .docx, .xls, .xlsx, .rtf or .pdf files. If submitted in any other format, the applicant bears the risk that compatibility or other issues will prevent us from considering the application. ETA will attempt to open the document but will not take any additional measures in the event of problems with opening. In such cases, the non-conforming application will not be considered for funding.

We strongly advise applicants to use the various tools and documents, including FAQs, which are available on the "Applicant Resources" page at http://www.grants.gov/applicants/app_help_reso.jsp.

ETA encourages new prospective applicants to view the online tutorial, "Grant Applications 101: A Plain English Guide to ETA Competitive Grants," available through Workforce3One at: http://www.workforce3one.org/page/grants_toolkit.

To receive updated information about critical issues, new tips for users and other time sensitive updates as information is available, applicants may subscribe to "Grants.gov Updates" at http://www.grants.gov/applicants/email_subscription_signup.jsp

If applicants encounter a problem with Grants.gov and do not find an answer in any of the other resources, call 1-800-518-4726 or 606-545-5035 to speak to a Customer Support Representative or email "support@grants.gov". The Contact Center is open 24 hours a day, seven days a week. It is closed on federal holidays.

Late Applications: For applications submitted on Grants.gov, only applications that have been successfully submitted no later than 4:00:00 p.m. Eastern Time on the closing date and then successfully validated will be considered. Applicants take a significant risk by waiting to the last day to submit by Grants.gov.

Any hard copy application received after the exact date and time specified for receipt at the office designated in this notice will not be considered, unless it is received before awards are made, it was properly addressed, and it was: (a) sent by U.S. Postal Service mail, postmarked not later than the fifth calendar day before the date specified for receipt of applications (e.g., an application required to be received by the 20th of the month must be postmarked by the 15th of that month); or (b) sent by professional overnight delivery service to the addressee not later than one working day before the date specified for receipt of applications. "Postmarked" means a printed, stamped or otherwise placed impression (exclusive of a postage meter machine impression) that is readily identifiable, without further action, as having been supplied or affixed on the date of mailing by an employee of the U.S. Postal Service. Therefore, applicants should request the postal clerk to place a legible hand cancellation "bull's eye" postmark on both the receipt and the package. Failure to adhere to these instructions will be a basis for a determination that the application was not filed timely and will not be considered. Evidence of timely submission by a professional overnight delivery service must be demonstrated by equally reliable evidence created by the delivery service provider indicating the time and place of receipt.

D. Intergovernmental Review

This funding opportunity is not subject to Executive Order 12372, "Intergovernmental Review of Federal Programs."

E. Funding Restrictions

All proposed project costs must be necessary and reasonable and in accordance with Federal guidelines. Determinations of allowable costs will be made in accordance with the applicable Federal cost principles. Disallowed costs are those charges to a grant that the grantor agency or its representative determines not to be allowed in accordance with the applicable Federal cost principles or other conditions contained in the grant.

Applicants, whether successful or not, will not be entitled to reimbursement of pre-award costs.

1. Indirect Costs

As specified in Office of Management and Budget (OMB) Circular Cost Principles, indirect costs are those that have been incurred for common or joint objectives and cannot be readily identified with a particular final cost objective. An indirect cost rate (ICR) is required when an organization operates under more than one grant or other activity, whether Federally-assisted or not. Organizations must use the ICR supplied by the Federal Cognizant Agency. If an organization requires a new ICR or has a pending

ICR, the Grant Officer will award a temporary billing rate for 90 days until a provisional rate can be issued. This rate is based on the fact that an organization has not established an ICR agreement. Within this 90 day period, the organization must submit an acceptable indirect cost proposal to their Federal Cognizant Agency to obtain a provisional ICR.

2. Administrative Costs

Under this SGA, an entity that receives a grant to carry out a project or program may not use more than 10 percent of the amount of the grant to pay administrative costs associated with the program or project. Administrative costs could be direct or indirect costs, and are defined at 20 CFR 667.220. Administrative costs do not need to be identified separately from program costs on the SF-424A Budget Information Form. However, they must be tracked through the grantee's accounting system. To claim any administrative costs that are also indirect costs, the applicant must obtain an Indirect Cost Rate Agreement from its Federal Cognizant agency, as specified above.

3. Salary and Bonus Limitations

None of the grant funds may be used by a recipient or subrecipient of such funds to pay the salary and bonuses of an individual, either as direct costs or indirect costs, at a rate in excess of Executive Level II. This limitation does not apply to vendors providing goods and services as defined in OMB Circular A-133 (codified at 29 CFR Parts 96 and 99). See Public Laws 112-74 (Division F, Title I, section 105), 112-10 (Division B, Title I), and 111-117 (Division D, Title I, section 107) and Training and Employment Guidance Letter number 5-06 for further clarification:
http://wdr.doleta.gov/directives/corr_doc.cfm?DOCN=2262.

4. Intellectual Property Rights

The Federal Government reserves a paid-up, nonexclusive and irrevocable license to reproduce, publish, or otherwise use, and to authorize others to use for Federal purposes: i) the copyright in all products developed under the grant, including a subgrant or contract under the grant or subgrant; and ii) any rights of copyright to which the grantee, subgrantee or a contractor purchases ownership under an award (including but not limited to curricula, training models, technical assistance products, and any related materials). Such uses include, but are not limited to, the right to modify and distribute such products worldwide by any means, electronically or otherwise. The grantee may not use federal funds to pay any royalty or license fee for use of a copyrighted work, or the cost of acquiring by purchase a copyright in a work, where the Department has a license or rights of free use in such work. If revenues are generated through selling products developed with grant funds, including intellectual property, these revenues are program income. Program income is added to the grant and must be expended for allowable grant activities. If applicable, the following needs to be on all products developed in whole or in part with grant funds:

“This workforce product was funded by a grant awarded by the U.S. Department of Labor's Employment and Training Administration. The product was created by the grantee and does not necessarily reflect the official position of the U.S. Department of Labor. The U.S. Department of Labor makes no guarantees, warranties, or assurances of

any kind, express or implied, with respect to such information, including any information on linked sites and including, but not limited to, accuracy of the information or its completeness, timeliness, usefulness, adequacy, continued availability, or ownership. This product is copyrighted by the institution that created it. Internal use by an organization and/or personal use by an individual for non-commercial purposes is permissible. All other uses require the prior authorization of the copyright owner.”

5. Use of Grant Funds for Participant Wages

Under Sec. 173A (c)(2) of WIA (29 USC 2918a(c)(2)), which was added by Section 2 of the YouthBuild Transfer Act, grantees may provide stipends for work experiences. Similar to WIA youth programs, stipends and incentives provided under YouthBuild grants must be in accordance with the policies and procedures of the grantee organization. Payments to youth may take the form of wages or stipends. Grantees must maintain documentation on how the amount for the stipend was set and the circumstances under which stipends will be provided. Grantees providing wages, stipends or incentive payments to youth should be aware of the implications under IRS provisions. Please consult <http://www.irs.gov> for more information.

F. Other Submission Requirements

Withdrawal of Applications: Applications may be withdrawn by written notice to the Grant Officer at any time before an award is made.

V. Application Review Information

This section identifies and describes the criteria that will be used to evaluate grant applications for both new applicants and previously-funded grantees. The Department will fund YouthBuild programs that are able to demonstrate the need for a program in their community, solid outcomes for youth, strong financial and program management, success in providing construction and, as appropriate, other occupational skills training, innovative academic programming that is designed to engage at-risk youth and build basic skill levels, and well-thought out and developed post-program transition strategies.

The first two criteria in Section V.A are required for both new and previously-funded applicants. Parts V.B and V.C. address additional criteria to which applicants are required to respond depending on whether they are previously-funded or new applicants. Previously-funded applicants must respond to the criteria in V.B, and new applicants must respond to the criteria in V.C. The point distributions for previously-funded and new applicants is summarized in the table below:

PART V. POINT DISTRIBUTIONS		
	Previously-Funded Applicants	New Applicants
A. All Applicants		
1. Statement of Need	28	28
2. Program Design	37	37
B. Previously-Funded Applicant Section		

1. Past Performance	35	
C. New Applicant Section		
1. Program Management and Organizational Capacity		20
2. Evidence of Past and Projected Success in a non-DOL-funded YouthBuild or Other Relevant Programs		15
Total Available Points	100	100

A. Required Criteria for All Applicants

Required Criteria for All Applicants	Points
1. Statement of Need	28
2. Program Design	37
Total	65

1. Statement of Need (28 points):

The proposal must identify the city or town where each community to be served is located and the number of youth, ages 16 to 24, expected to be served. For the city or town to be served, applicants must provide the information identified below. For specific instructions on how to locate the information requested in Section V.A.1(a), (b), and (c) below, please see Section VIII. “Additional Resources of Interest to Applicants.”

a. Unemployment Rate (Maximum 6 points):

The proposal will receive points based on the average unemployment rate (out to two decimal places) of the combined cities or towns identified as part of the target community(ies) compared to the national unemployment rate as of the latest available comparable data. This data is broken into two youth subsets: 16 – 19 and 20 – 24. Applicants will have to average the unemployment rate for these two age groups by adding the rates together and then dividing by 2. The points awarded for this criterion are as follows:

- Applicants will receive 6 points for this subsection if the unemployment rate for the combined cities or towns to be served is greater than the national unemployment rate.
- Applicants will receive 3 points for this subsection if the unemployment rate is equal to the national unemployment rate.
- Applicants will receive 0 points for this subsection if the unemployment rate is less than the national unemployment rate.

If applicants are serving a community that spans more than one city or town, they should add the age-averaged unemployment rates for each city or town together and divide the total by the total number of cities or towns to find the unemployment rate for the combined cities or towns. Applicants must use Bureau of Labor Statistics data for the national unemployment rate and for the local areas to be served. This data can be found

through the Census' Web site at:

<http://factfinder2.census.gov/faces/nav/jsf/pages/index.xhtml>. For this criterion, the national unemployment rate against which applicants will be evaluated is: 22.65% (using 3-year national data as of January 4, 2013). For specific instructions on how to locate the information requested here, please see Section VIII. "Additional Resources of Interest to Applicants."

b. Poverty Rate (Maximum 6 points):

The proposal must provide, for each city or town, the poverty rate that is listed in the Poverty Data available for download at

<http://factfinder2.census.gov/faces/nav/jsf/pages/index.xhtml>. Applicants serving multiple cities or towns will be scored based on the average poverty rate of the proposed cities and/or towns to be served.

- Applicants will receive 6 points for this subsection if the Poverty Data spreadsheet lists an average poverty rate of 15% or more across all cities or towns to be served.
- Applicants will receive 4 points for this subsection if the Poverty Data spreadsheet lists an average poverty rate of 10% to 14.99% across all cities or towns to be served.
- Applicants will receive 2 points for this subsection if the Poverty Data spreadsheet lists an average poverty rate of 5% to 9.99% across all cities or towns to be served.
- If the Poverty Data spreadsheet does not list an average poverty rate of at least 5% across all cities or towns to be served, the applicant will receive 0 points.

c. Graduation Rate (Maximum 6 points):

Using data found at <http://www.edweek.org/apps/gmap/>, the applicant must compare the average graduation rate across all of the cities or towns to be served with the national graduation rate of 73.4% (based on Ed Week's latest data from the class of 2009). For specific instructions on how to locate this information, please see Section VIII. "Additional Resources of Interest to Applicants."

Points will be awarded as follows:

- Applicants will receive 6 points for this subsection if the average graduation rate for the schools located in the cities or towns to be served is 48.40% or below.
- Applicants will receive 4 points for this subsection if the average graduation rate for the schools located in the cities or towns to be served is 48.41% to 58.40%.
- Applicants will receive 2 points for this subsection if the average graduation rate for the schools located in the cities or towns to be served is 58.41% to 68.40%.
- Applicants will receive 0 points for this subsection if the average graduation rate for the schools located in the cities or towns to be served is 68.41% or above.

d. Construction and Other Industry(ies) Focus (Maximum 10 points):

As stated above, all applicants must provide construction training. Organizations that have not previously received DOL funding for YouthBuild **may only** provide construction training. Previously-funded applicants proposing to offer training in addition to construction skills training must guarantee that a sufficient number of students will be enrolled and complete construction skills training during the grant period of performance to enable the grantee to build or renovate at least one unit of affordable housing for low-income individuals or transitional housing for the homeless. Applicants must also describe the condition and availability of affordable housing in the community, including a description of existing housing, such as the number and percentage of substandard and/or overcrowded units, rent burden (defined as average housing cost divided by average income), and/or the incidence of homelessness.

If a previously-funded applicant plans to offer occupational skills training in area(s) in addition to construction skills training, information on the industry(ies) focus of the occupational skills training that will be offered must be provided. The applicant must include local labor market data that supports the decision to provide occupational skills training in the additional targeted field(s). The applicant must describe the curriculum (or curricula) that will be used and the industry-recognized credential(s) that will result from this training. The applicant must describe how the industry(ies) selected will benefit the target community(ies). For example, the construction of affordable housing benefits not only the youth but the community where the affordable housing is built or renovated. The applicant must describe how industry partners have or will be engaged in the design of the program.

There is no scoring differential for prospective applicants who offer only construction skills training or offer construction skills training and occupational skills training in an additional industry(ies). Applicants will be evaluated on the extent to which the application provides evidence of the following factors:

- The local labor market data as derived from Bureau of Labor Statistics data or other relevant sources, such as city, county or state labor market reports, is included and demonstrates a clear and compelling case for the selection of additional industry(ies) as demand industries with career pathways in the community(ies) to be served. Applicants must provide evidence that the targeted industries and occupations will yield opportunities for YouthBuild participants to obtain necessary training and employment in targeted occupations. The geographic scope of the labor market information must match the geographic scope of the proposed project.
- Industry partners have or will play a role in the review and/or development of the curricula and credentialing.
- The credential resulting from the occupational skills training is industry-recognized and portable.
- The benefit that the community(ies) will derive from the participation of youth in occupational skills training within the selected industry(ies).
- The lack of affordable housing or incidence of homelessness for the proposed target area relative to national averages.

- Evidence that the grantee will have sufficient youth in the construction skills training to build or renovate at least one unit of housing over the grant period of performance.

2. Program Design (37 points)

The applicant must identify and describe the various components of the proposed program, how these components are integrated with each other, and how youth will progress through the program. Given the connection between education and earnings, the academic component must be rigorous and challenging, and must provide participants with opportunities to transition to post-secondary training. The program must be structured so that participants in the program are offered education and related services designed to meet educational needs for at least 50 percent of the time during which they participate in the program. YouthBuild program participants must be offered work and skill development activities in occupational skills training for at least 40 percent of the time during which they participate in the program. The 50-40 time allocation applies at the program level and not to the actual time that an individual spends in a component. The remaining 10 percent of the time can be added to either the education or occupational skills training components or used for another type of training, such as youth leadership development or community service learning.

The applicant must include, as attachments to the Technical Proposal, a monthly program calendar and a program cycle calendar covering programming for the entire cycle of one cohort of youth. The applicant must indicate how the program activities will support achievement of the performance goals established for the YouthBuild program. These performance goals are: Placement in Education or Employment, Certificate/Degree Attainment, Literacy/Numeracy Gains, Post-Program Retention in Education and Employment, and the Recidivism Rate. The applicant must describe the partners that will assist with the implementation and operation of the YouthBuild program. Scoring for this section will be based on the extent to which the applicant addresses the criteria under each of the required components listed below.

a. Education and Occupational Skills Training (Maximum 8 points):

In this section, the applicant must fully describe the academic and occupational skills training that will be offered to YouthBuild participants. Applicants must also describe how green construction skills training will be delivered to students.

Applicants will be evaluated on the extent to which the application provides evidence of the following factors:

- The evidence that the type of academic instruction offered by the program will result in participants earning a GED, high school diploma or degree certificate, or other state-recognized equivalent including recognized alternative standards for people with disabilities.
- The applicant has provided a full description of the academic program, including the qualifications of the teaching staff, and the use of partner organizations, and a full description of innovative curriculum elements, including the use of any instructional strategies to address basic skills deficiencies, and the extent to which project-based learning is used.

- The applicant has fully described how the academic portion of the program differs from that of a traditional comprehensive high school and how student mastery of skills will be determined.
- The applicant has fully described where and how occupational skills training will be conducted, how the curriculum(a) is developed, the type of industry-recognized credentials that result from the training, and how green construction skills training will be included. This bullet point is required for both new and previously-funded applicants, which describes the delivery of the academic and occupational skills training and how this training will be incorporated into the overall program design for all YouthBuild participants. This differs from the training plan requirement for new applicants in Section V. C. 1. which provides specific details of the construction training component only.
- Applicants with existing or previously-funded DOL programs who wish to offer other occupational skills training in addition to construction have clearly described the type of training that will be offered for both construction and other occupational skills training. Applicants offering additional occupational skills training have also indicated the name and type of curriculum(a) used and the credential(s) expected to be earned.
- The applicant has demonstrated the involvement of industry and apprenticeship partners in the design of education and occupational skills training curricula, in order to ensure that the skills learned by participants are aligned with the needs of employers.
- The applicant describes the use of worksite safety training as outlined by OSHA to ensure that youth will be safe and responsible on construction worksites.

b. Post-Program Placement and Follow-Up Services (Maximum 6 points):

In this section, applicants must describe the post-program transition services that they will offer to prepare youth for employment placements and/or educational placements. Applicants will be evaluated on the extent to which the application provides evidence of the following factors:

- The applicant describes a detailed and thorough approach to post-program transition that includes an assessment of each participant's college and employment readiness skills, as well as supportive service or other post-program needs.
- Work readiness and career exploration are clearly and fully integrated into the culture, core mission, and activities of the program.
- The applicant has an integrated approach to providing post-program planning for participants.
- The structure of the participant follow-up service strategy is comprehensive and designed to ensure ongoing communication and retention support during the nine- to twelve-month follow-up period.
- The applicant describes how it will link program participants to local community and four-year colleges and trade schools, particularly for YouthBuild programs that offer GEDs to participants.

c. Community Service Learning and Leadership Development (Maximum 5 points):

In this section, applicants must describe the community service learning and leadership development opportunities that will be provided for youth in the program. These activities must be integrated into all occupational skills training opportunities, including construction and other training programs, as relevant.

Applicants will be evaluated on the extent to which the application provides evidence of the following factors:

- An effective strategy for community service learning has been developed and includes input from youth participants.
- An effective strategy for youth leadership development opportunities has been developed including how youth will be engaged in the decision-making process.
- The applicant describes how staff will be trained on the curriculum used and/or principles underlying both the community service learning and youth leadership development components of the program.
- Youth leadership development and community service learning activities are clearly integrated with the academic, skills training, and career exploration/work readiness components of the program.

d. Partners (Maximum 5 points):

In this section, applicants must identify and describe the key partners who will be involved in the implementation and operation of the proposed YouthBuild project, specify clear roles for each partner, and describe the activities that each partner will undertake. This section is scored based on the quality of partnerships, not the quantity. Accordingly, applicants must demonstrate that all partners understand their areas of responsibility in the program, as well as how they will contribute to strong performance outcomes. The roles for key partners must be verified through a signed letter of commitment submitted by each partner including resources committed, if appropriate. Letters of commitment will not count against the 25-page (new applicant) or 20-page (previously-funded grantee) limit of the technical proposal. Applicants will be evaluated on the extent to which the application provides evidence of the following factors:

- The applicant provides information on any partnerships in place and/or planned to support implementation and operation of the program in meeting performance goals and defines the clear role of each partner.
- The applicant demonstrates the ability to successfully manage partnerships.
- The applicant describes a comprehensive strategy for communication among partners that includes how partners will be trained. Training must include an explanation of partner roles and responsibilities as well as the impact of the partnership on program outcomes.
- The applicant includes a letter of commitment from each partner that clearly specifies their role, as well as resources contributed to the project (if applicable).

e. Outreach, Recruitment, and Selection (Maximum 4 points):

In this section, applicants must describe how eligible youth will be recruited and selected as participants for the YouthBuild program, including methods for outreach, referral, and selection.

Applicants will be evaluated on the extent to which the application provides evidence of the following factors:

- The applicant demonstrates a recruitment strategy including methods for outreach, referral, and selection in a manner that will ensure diverse and full enrollment.
- The applicant describes the targeted approach for recruiting young women as well as the successful past efforts to recruit eligible young women (including young women with dependent children) into the YouthBuild program or another comparable youth workforce development program.

f. Program Integration (Maximum 4 points):

In this section, applicants must describe the design and integration of the required program components, including education, occupational skills training (including how they will be exposed to and provided with opportunities to learn a range of skills in the training provided), youth leadership development, career exploration and planning, post-program support, and community service learning opportunities. The applicant must also describe the degree to which career and college exploration and planning activities will be incorporated into the overall culture of the program.

Applicants will be evaluated on the extent to which the application provides evidence of the following factors:

- The applicant has an effective strategy to integrate all program elements, including the integration of community service and leadership activities supporting career exploration and occupational skill training.
- The academic program is explicitly integrated with occupational skills training.
- The applicant describes training and professional development opportunities for program staff in order to support program integration.

g. Program Calendar (Maximum 3 points):

The applicant must include as an attachment to the Technical Proposal a comprehensive program calendar that specifically includes: 1) a timeline for completing critical activities within the four-month planning period (as described in Sec. II.B “Period of Performance”); 2) the activities and services provided to youth over the course of one month of active participation in the program; and 3) the activities over the entire cycle of one cohort of youth, including recruitment, enrollment, active participation, and the 9-12 month follow-up period.

Applicants will be evaluated on the extent to which:

- The program calendar demonstrates that a sufficient amount of time is allotted to educational programming and occupational skills training and follow-up activities for participants.

h. Organizational Chart and Staffing Plan (Maximum 2 points):

To receive full points in this section, applicants must submit an organizational chart that fully reflects how the YouthBuild program will be staffed, including key positions, such as Program Director, Case Managers, Job Developers, etc. In instances where the YouthBuild program is part of a larger organization, include a diagram that indicates how the YouthBuild program fits within the larger organization. The chart and staffing plan should be included as Technical Proposal Attachments and do not count against the 20-page (previously-funded applicants) or 25-page (new applicants) limitation of the Technical Proposal.

B. Required Evaluation Criterion for Previously-Funded Applicants

Required Evaluation Criterion for Previously-Funded Applicants	Points
1. Past Performance	35
Total	35

1. Past Performance (35 points)

Organizations that have previously received a YouthBuild award from the Department of Labor will receive points based on past performance demonstrated by their most recent Quarterly Performance Report (ETA-9136) and Quarterly Financial Report (ETA-9130). Applicants DO NOT need to submit these two reports as attachments; the Department will use data from the YouthBuild MIS system and the DOL financial reporting system. **If the organization has never received funding from DOL to operate a YouthBuild program, applicants should skip this section and proceed to Section V.C. Required Criteria for New Applicants.**

YouthBuild Grantees (for the Period of Performance):	Submit Quarterly Performance Report (ETA-9136) and Quarterly Financial Report (ETA-9130) for Period Ending:
October 15, 2007 – October 14, 2010	December 31, 2010 (Q2 of PY10)
July 21, 2008 – July 20, 2011	September 30, 2011 (Q1 of PY11)
July 1, 2009 – June 30, 2012	June 30, 2012 (Q4 of PY11)
March 15, 2011 – May 31, 2014	December 31, 2012 (Q2 of PY12)
June 1, 2011 – May 31, 2014	December 31, 2012 (Q2 of PY12)

If the applicant’s organization has received multiple YouthBuild awards, the Department will base scoring in this section on performance shown by the most recent ETA-9136 and ETA-9130 for the most recently awarded grant. Points will be awarded as follows:

a. Placement in Education or Employment (Maximum 7 points):

- Applicants with placement rates of 75.00% or higher will receive 7 points for this subsection.

- Applicants with placement rates of 65.00% – 74.99% will receive 6 points for this subsection.
- Applicants with placement rates of 55.00% - 64.99% will receive 5 points for this subsection.
- Applicants with placement rates of 45.00% - 54.99% will receive 4 points for this subsection.
- Applicants with placement rates of 35.00% - 44.99% will receive 3 points for this subsection.
- Applicants with placement rates of 30.00% – 34.99% will receive 2 points for this subsection.
- Applicants with placement rates of 29.99% or below will receive 0 points for this subsection.

b. Certificate/Degree Attainment (Maximum 7 points):

- Applicants with certificate/degree attainment rates of 75.00% or higher will receive 7 points for this subsection.
- Applicants with certificate/degree attainment rates of 65.00% – 74.99% will receive 6 points for this subsection.
- Applicants with certificate/degree attainment rates of 55.00% - 64.99% will receive 5 points for this subsection.
- Applicants with certificate/degree attainment rates of 45.00% - 54.99% will receive 4 points for this subsection.
- Applicants with certificate/degree attainment rates of 35.00% - 44.99% will receive 3 points for this subsection.
- Applicants with certificate/degree attainment rates of 30.00% –34.99% will receive 2 points for this subsection.
- Applicants with certificate/degree attainment rates of 29.99% or below will receive 0 points for this subsection.

c. Literacy/Numeracy Gains (Maximum 7 points):

- Applicants with literacy/numeracy gains of 75.00% or higher will receive 7 points for this subsection.
- Applicants with literacy/numeracy gains of 65.00% – 74.99% will receive 6 points for this subsection.
- Applicants with literacy/numeracy gains of 55.00% - 64.99% will receive 5 points for this subsection.
- Applicants with literacy/numeracy gains of 45.00% - 54.99% will receive 4 points for this subsection.
- Applicants with literacy/numeracy gains of 35.00% - 44.99% will receive 3 points for this subsection.
- Applicants with literacy/numeracy gains of 30.00% – 34.99% will receive 2 points for this subsection.
- Applicants with literacy/numeracy gains of 29.99% or below will receive 0 points for this subsection.

d. Retention in Education or Employment (Maximum 7 points):

- Applicants with retention rates of 75.00% or higher will receive 7 points for this subsection.
- Applicants with retention rates of 65.00% – 74.99% will receive 6 points for this subsection.
- Applicants with retention rates of 55.00% - 64.99% will receive 5 points for this subsection.
- Applicants with retention rates of 45.00% - 54.99% will receive 4 points for this subsection.
- Applicants with retention rates of 35.00% - 44.99% will receive 3 points for this subsection.
- Applicants with retention rates of 30.00% – 34.99% will receive 2 points for this subsection.
- Applicants with retention rates of 29.99% or below will receive 0 points for this subsection.

e. Timeliness of Report Submissions (Maximum 3 points):

An applicant will receive points for the timely submission of quarterly performance and financial reports for the four reporting quarters shown in the chart below, for the most recent grant award received:

YouthBuild Grantees (for the Period of Performance):	1 st Reporting Quarter	2 nd Reporting Quarter	3 rd Reporting Quarter	4 th Reporting Quarter
October 15, 2007 – October 14, 2010	Q3 of PY09	Q4 of PY09	Q1 of PY10	Q2 of PY10
July 21, 2008 – July 20, 2011	Q2 of PY10	Q3 of PY10	Q4 of PY10	Q1 of PY11
July 1, 2009 – June 30, 2012	Q1 of PY11	Q2 of PY11	Q3 of PY11	Q4 of PY11
March 15, 2011 – May 31, 2014	Q3 of PY11	Q4 of PY11	Q1 of PY12	Q2 of PY12
June 1, 2011 – May 31, 2014	Q3 of PY11	Q4 of PY11	Q1 of PY12	Q2 of PY12

The Department will use data from the YouthBuild MIS system and the DOL financial reporting system to determine scoring under this section. If an initial report was submitted on time but revised reports were submitted at later dates, the earlier date will be considered the date of submission. Points will be assigned as follows:

- Applicants that have submitted all four quarterly performance and financial reports on or before the due date will receive 3 points.
- Applicants that have submitted a complete set of quarterly reports (quarterly performance and financial reports) for three of the four quarters on or before the due date will receive 2 points.
- Applicants that have submitted a complete set of quarterly reports (quarterly performance and financial reports) for fewer than three quarters on or before the due date will receive 0 points.

f. Spending Rate Analysis (Maximum 4 points):

Spending grant funds within the original period of performance indicates that the applicant organization has the ability to adequately deploy the resources provided by the Department and manage a budget effectively.

The scoring criteria described below for the spending rate analysis takes into account the expected grant startup period of approximately six months, during which grantee spending is typically lower. This analysis will be based on the applicant's most recent grant. For example, if the applicant's organization received an award in 2007 and in 2009, information regarding the spending rate will be based on the 2009 award.

- For organizations that received a YouthBuild award in 2007, 2008, or 2009 (including ARRA-funded YouthBuild awards), points will be awarded as follows:
 - Applicants that expended 100% of grant funds and met 100% of their match requirement (25% of the grant award) within their original 36-month period of performance will receive 4 points.
 - Applicants that expended at least 90% of grant funds and met 100% of their match requirement (25% of the grant award) within their original 36-month period of performance will receive 3 points.
 - Applicants that expended 90% or less of grant funds or did not meet 100% of their match requirement (25% of the grant award) within their original 36-month period of performance will receive 0 points.
- For programs that received a YouthBuild award in 2011, including both FY 2010 grantees (period of performance which started March 15, 2011) and FY 2011 grantees (period of performance which started June 1, 2011):
 - Applicants that have expended at least 25% of grant funds by June 30, 2012 and have reported at least 25% of the match requirement will receive 4 points.
 - Applicants that have expended at least 25% of grant funds by June 30, 2012 and have reported less than 25% of the match requirement will receive 3 points.
 - Applicants that have expended less than 25% of grant funds by June 30, 2012 and have not reported at least 25% of the match requirement will receive 0 points. Applicants that expend less than 25% of the grant funds and report more than 25% of the match requirement will also receive 0 points.

C. Required Criteria for New Applicants

An organization is considered a new applicant if the organization has never received funds from the U.S. Department of Labor's Employment and Training Administration to operate a YouthBuild program.

Required Criteria for New Applicants	Points
1. Program Management and Organizational Capacity	20
2. Evidence of Past and Projected Success in a non-DOL-funded YouthBuild or Other Relevant Programs	15
Total	35

1. Program Management and Organizational Capacity (20 points)

The applicant must provide a description of its organization and a statement of its qualifications for operating a YouthBuild program, including years of operation, current annual budget, continuity of leadership, the experience of staff, their roles, as well as those of any consultants and collaborative organizations that may be part of operating the YouthBuild program. The applicant must also provide a detailed construction training plan for participants. The construction training plan is intended to ensure the delivery of a comprehensive training program for YouthBuild participants as construction skills training is one of the most complicated aspects of the YouthBuild model.

For new grantees that may not have past experience operating a construction training program, it is important to have detailed information on the specific training activities that will be implemented to successfully meet the outcomes in the Solicitation, which includes a schedule of activities that takes into consideration and plans for contingencies that may prevent the proposed training from taking place (such as losing a work site, inclement weather, or the loss of a certified trainer/construction lead or program partner).

Scoring under this criterion will be based on the extent to which applicants provide evidence of the following factors:

- The applicant has demonstrated the overall financial stability of the organization, including the most recent audited financial statements and, if applicable, the accompanying management letter (see Section IV. Part III and Attachment A for more information).
- The applicant has described its success in operating grants from either Federal or non-Federal sources, and has described what funding streams have been managed for the past three years, including Federal grants, private grants, and other sources of funding.
- The applicant provides details of the fiscal controls in place in the organization for auditing and accountability procedures, including a description of the financial accounting system used to track funding streams and details on how it ensures good accounting practices are in place.
- The applicant describes its proposed project management structure and identifies job duties for key staff, including qualifications, experience, and time commitment to the project. The time commitment of the proposed staff, as described, is sufficient to ensure proper direction, management, and timely completion of the project including oversight and management of consultants

and any partnering agencies. The applicant also describes the professional development activities available to staff.

- The applicant demonstrates the organization’s capacity to track and report outcomes and its ability to collect and manage data in a way that allows consistent, accurate, and expedient reporting.
- The capacity of the applicant organization to accomplish the goals and outcomes of the project is demonstrated, including the ability to collect and manage data in a way that allows consistent, accurate, and expedient reporting
- The applicant has previous experience in operating grants, either Federal or non-Federal, and demonstrated experience with managing multiple funding streams.
- The applicant has provided a construction training plan that addresses: 1) the overall scope of the construction training including objectives and goals; 2) training offerings including the type of training approach, the training curricula that will be used, and the training schedule; 3) description of how technology is being incorporated into the design and delivery of the training program; 4) roles and responsibilities for all of the staff involved in preparing and, conducting the training, including ensuring that construction trainers are certified; 5) a contingency plan to ensure that alternate training can be quickly implemented should barriers arise, such as inclement weather, loss of work sites, or the loss of certified construction trainers or program partners; and 6) information about the training materials to be used, including the standards and guidelines that ensure the use of quality curriculum. See Attachment B for a sample template. The training plan is one of the required attachments for not-previously-funded applicants and will not count toward the 25-page limit. The training plan is limited to three double-spaced pages, using the sample template referenced above.

2. Evidence of Past Performance in a Non-DOL-Funded YouthBuild or Other Relevant Program (15 points)

The applicant must fully describe and document past accomplishments it has achieved operating a non-DOL-funded YouthBuild program or another youth workforce development and construction training program that is comparable to YouthBuild in its complexity and duration in the provision of education and skills training for at-risk youth. Applicants that have not operated a construction training program must explain how their experience in operating a youth workforce development program has prepared them to undertake the complexities of operating a construction program. The applicant must describe the program and how long the program has been in operation. Applicants must fully describe how both the academic and skills training curricula were developed and how long they have been used. Applicants that have operated a YouthBuild program with non-DOL funding or another comparable youth workforce development program must provide in a chart, which may be single-spaced, the following information:

- Program duration (e.g. months participants are enrolled in the program);
- Number of youth recruited;
- Number of youth enrolled;
- Number of youth who successfully completed the program;

- Number and percent of youth who have entered registered apprenticeship programs; and
- Cost per participant.

Scoring under this criterion will be based on the extent to which applicants provide evidence of the following factors:

- The data on the relevant program is provided and documented adequately.
- The applicant organization had demonstrated success in connecting at-risk youth to employment and educational opportunities and placements.
- The applicant's description of programming activities undertaken was integrated and sufficiently complex to yield positive performance outcomes and youth were exposed and trained in a variety of industry-recognized certification programs.
- The applicant used occupational skills training curricula that results in youth receiving industry-recognized credentials; and
- The applicant used state-approved curricula for either the GED or high school diploma, degree certificate, or other state-recognized equivalent including recognized alternative standards for people with disabilities.

D. Review and Selection Process

Applications for grants under this Solicitation will be accepted after the publication of this announcement and until the specified time on the closing date. A technical review panel will carefully evaluate applications against the selection criteria. These criteria are based on the policy goals, priorities, and emphases set forth in this SGA. Up to 100 points may be awarded to an applicant, depending on the quality of the responses to the required information described in Section V. The ranked scores (which may include the mathematical normalization of review panels) will serve as the primary basis for selection of applications for funding, in conjunction with other factors such as geographic balance; the availability of funds; balance between new and previously-funded applicants; and which proposals are most advantageous to the government. The panel results are advisory in nature and not binding on the Grant Officer. The Grant Officer may consider any information that comes to his/her attention. The government may elect to award the grant(s) with or without discussions with the applicant. Should a grant be awarded without discussions, the award will be based on the applicant's signature on the SF-424, including electronic signature via E-Authentication on <http://www.grants.gov>, which constitutes a binding offer by the applicant.

Applications that contain any of the following deficiencies will be found non-responsive and will not be considered. They are:

- The funding requested exceeds the maximum grant award amount of \$1.1 million, as specified in Section II.A;
- The application does not include a Cost Proposal, Technical Proposal, or Attachments to the Technical Proposal, as specified in Section IV.B;
- The application does not specify matching funds of exactly 25 percent of the grant award amount, as specified in Section III.B;
- The application fails to provide an SF-424 (including D-U-N-S® Number), SF-424A, or budget narrative, as specified in Section IV.B;

- The applicant does not have an active account in SAM at the time of application, as specified in Section IV.B;
- The application does not include all of the following attachments, as specified by Section IV.B Part III:
 - Abstract (all applicants);
 - Worksite Description Form (all applicants);
 - Project/Performance Site Location Form (all applicants);
 - Chart of Past Performance (new applicants);
 - Most Recent Audited Financial Statements and Management Letter (new applicants); and
 - Construction Training Plan (new applicants)

VI. Award Administration Information

A. Award Notices

All award notifications will be posted on the ETA Homepage (<http://www.doleta.gov>). Applicants selected for award will be contacted directly before the grant's execution. Non-selected applicants will be notified by mail or email and may request a written debriefing on the significant weaknesses of their proposal.

Selection of an organization as a grantee does not constitute approval of the grant application as submitted. Before the actual grant is awarded, ETA may enter into negotiations about such items as program components, staffing and funding levels, and administrative systems in place to support grant implementation. If the negotiations do not result in a mutually acceptable submission, the Grant Officer reserves the right to terminate the negotiations and decline to fund the application. DOL reserves the right to not fund any application related to this SGA.

B. Administrative and National Policy Requirements

1. Administrative Program Requirements

All grantees will be subject to all applicable Federal laws, regulations, and the applicable OMB Circulars. The grant(s) awarded under this SGA will be subject to the following administrative standards and provisions:

i. Non-Profit Organizations – OMB Circular A-122 (Cost Principles), relocated to 2 CFR Part 230, and 29 CFR Part 95 (Administrative Requirements)

ii. Educational Institutions – OMB Circular A-21 (Cost Principles), relocated to 2 CFR Part 220, and 29 CFR Part 95 (Administrative Requirements).

iii. State, Local and Indian Tribal Governments – OMB Circular A-87 (Cost Principles), relocated to 2 CFR Part 225, and 29 CFR Part 97 (Administrative Requirements).

iv. Profit Making Commercial Firms – Federal Acquisition Regulation (FAR) – 48 CFR part 31 (Cost Principles), and 29 CFR Part 95 (Administrative Requirements).

v. All Grant Recipients must comply with the applicable provisions of The Workforce Investment Act of 1998, Public Law No. 105-220, 112 Stat. 936 (codified as amended at 29 U.S.C. 2801 et seq.) and the applicable provisions of the regulations at 20 CFR 660 et seq. Note that 20 CFR part 667 (General Fiscal and Administrative Rules) includes unsuccessful applicant appeal information.

vi. All entities must comply with 29 CFR Part 93 (New Restrictions on

Lobbying), 29 CFR Part 94 (Governmentwide Requirements for Drug-Free Workplace (Financial Assistance)), 29 CFR 95.13 and Part 98 (Governmentwide Debarment and Suspension, and drug-free workplace requirements), and, where applicable, 29 CFR Part 96 (Audit Requirements for Grants, Contracts, and Other Agreements) and 29 CFR Part 99 (Audits of States, Local Governments and Non-Profit Organizations).

vii. 29 CFR Part 2, subpart D—Equal Treatment in Department of Labor Programs for Religious Organizations, Protection of Religious Liberty of Department of Labor Social Service Providers and Beneficiaries.

viii. 29 CFR Part 31—Nondiscrimination in Federally Assisted Programs of the Department of Labor—Effectuation of Title VI of the Civil Rights Act of 1964.

ix. 29 CFR Part 32—Nondiscrimination on the Basis of Handicap in Programs or Activities Receiving Federal Financial Assistance.

x. 29 CFR Part 35— Nondiscrimination on the Basis of Age in Programs or Activities Receiving Federal Financial Assistance from the Department of Labor.

xi. 29 CFR Part 36—Nondiscrimination on the Basis of Sex in Education Programs or Activities Receiving Federal Financial Assistance.

xii. 29 CFR Part 37 – Implementation of the Nondiscrimination and Equal Opportunity Provisions of the Workforce Investment Act of 1998.

xiii. 29 CFR Parts 29 and 30—Labor Standards for the Registration of Apprenticeship Programs, and Equal Employment Opportunity in Apprenticeship and Training, as applicable.

2. Other Legal Requirements:

i. Religious Activities

The Department notes that the Religious Freedom Restoration Act (RFRA), 42 U.S.C. Section 2000bb, applies to all Federal law and its implementation. If your organization is a faith-based organization that makes hiring decisions on the basis of religious belief, it may be entitled to receive Federal financial assistance under Title I of the Workforce Investment Act and maintain that hiring practice even though Section 188 of the Workforce Investment Act contains a general ban on religious discrimination in employment. If you are awarded a grant, you will be provided with information on how to request such an exemption.

ii. Lobbying or Fundraising the U.S. Government with Federal Funds

In accordance with Section 18 of the Lobbying Disclosure Act of 1995 (Public Law 104-65) (2 U.S.C. 1611), non-profit entities incorporated under Internal Revenue Service Code Section 501(c) (4) that engage in lobbying activities are not eligible to receive Federal funds and grants. No activity, including awareness-raising and advocacy activities, may include fundraising for, or lobbying of, U.S. Federal, State or Local Governments (see OMB Circular A-122).

iii. Transparency Act Requirements

Applicants must ensure that it has the necessary processes and systems in place to comply with the reporting requirements of the Federal Funding Accountability and Transparency Act of 2006 (Pub. Law 109-282, as amended by section 6202 of Pub. Law 110-252) (Transparency Act), as follows:

- All applicants, except for those excepted from the Transparency Act under subparagraphs 1, 2, and 3 below, must ensure that they have the necessary processes

and systems in place to comply with the subaward and executive total compensation reporting requirements of the Transparency Act, should they receive funding.

- Upon award, applicants will receive detailed information on the reporting requirements of the Transparency Act, as described in 2 CFR Part 170, Appendix A, which can be found at the following website:
<http://edocket.access.gpo.gov/2010/pdf/2010-22705.pdf>

The following types of awards are not subject to the Federal Funding Accountability and Transparency Act:

- (1) Federal awards to individuals who apply for or receive Federal awards as natural persons (i.e., unrelated to any business or non-profit organization he or she may own or operate in his or her name);
- (2) Federal awards to entities that had a gross income, from all sources, of less than \$300,000 in the entities' previous tax year; and
- (3) Federal awards, if the required reporting would disclose classified information.

iv. Safeguarding Data Including Personally Identifiable Information (PII)

Applicant's submitting proposals in response to this SGA must recognize that confidentiality of PII and other sensitive data is of paramount importance to the Department of Labor and must be observed except where disclosure is allowed by the prior written approval of the Grant Officer or by court order. By submitting a proposal, Grantees are assuring that all data exchanges conducted through or during the course of performance of this grant will be conducted in a manner consistent with applicable Federal law. All such activity conducted by ETA and/or Grantee/s will be performed in a manner consistent with applicable state and Federal laws.

By submitting a grant proposal, the applicant agrees to take all necessary steps to protect such confidentiality by complying with the following provisions that are applicable in governing their handling of confidential information:

1. Grantees shall not extract information from data supplied by DOL/ETA for any purpose not stated in the SGA.
2. Grantees shall retain data received from DOL/ETA only for the period of time required to utilize it for assessment and other purposes, or to satisfy applicable federal records retention requirements, if any. Thereafter, the Grantee agrees that all data will be destroyed, including the degaussing of magnetic tape files and permanent deletion of electronic data.
3. Grantees shall ensure that any information used during the performance of this Grant has been obtained and is being transmitted in conformity with applicable Federal and state laws governing the protection of PII and the confidentiality of information. Information transmitted to DOL/ETA containing sensitive information including personally identifiable information (PII) must be encrypted using National Institute of Standards and Technology (NIST) Federal Information Processing Standards (FIPS) 140-2 validated products. The encrypted information must be encrypted in a form that would allow the receiver of the information to decrypt the information without installing additional software or tools.

4. Access to any information created by DOL/ETA shall be restricted to only those employees of the Grant recipient who need it in their official capacity to perform duties in connection with the Scope of Work outlined in this SGA.
5. Grantee employees and other personnel who will have access to sensitive/confidential/proprietary/private data and PII shall be advised of the confidential nature of the information, the safeguards required to protect the information, and the civil and criminal sanctions for noncompliance with such safeguards that are contained in Federal and state laws.
6. Prior to being able to have access to PII and other confidential data, Grantee employees and other personnel shall execute a standard document acknowledging their understanding of the confidential nature of the data and the safeguards with which they must comply in their handling of such data as well as the fact that they may be liable to civil and criminal sanctions for improper disclosure.
7. Grantees further acknowledge that all data obtained through DOL/ETA shall be stored in an area that is physically safe from access by unauthorized persons at all times and the data will be processed using grantee issued equipment, managed information technology (IT) services, and designated locations approved by DOL/ETA. Accessing, processing, and storing of DOL/ETA data on personally owned equipment, at off-site locations e.g. employee's home, and non-Grantee managed IT services e.g. yahoo mail, is strictly prohibited unless approved by DOL/ETA.
8. All PII and other data shall be processed in a manner that will protect the confidentiality of the records/documents and is designed to prevent unauthorized persons from retrieving such records by computer, remote terminal or any other means. Data may be downloaded to, or maintained on, mobile or portable devices only if the data are encrypted using NIST FIPS 140-2 validated products. In addition, wage data may only be accessed from secure locations.
9. Data obtained by the Grantee through a request shall not be disclosed to third parties except as permitted by the Grant Officer.
10. Grantees shall permit ETA to make onsite inspections during regular business hours for the purpose of conducting audits and/or to conduct other investigations to assure that the Grantee is complying with the confidentiality requirements described above. In accordance with this responsibility, Grantees shall make records applicable to this Agreement available to authorized persons for the purpose of inspection, review, and/or audit.
11. Grantees shall take the steps necessary to ensure the privacy of all PII obtained from participants and/or other individuals and to protect such information from disclosure to unauthorized individuals. Grantees shall maintain such PII in accordance with the DOL/ETA standards for information security provided herein, including any updates to such standards provided to the Grantee by DOL/ETA. Grantees shall report immediately to the DOL ETA Information Security Officer (ISO) any suspected or confirmed breaches or compromise of PII obtained from participants and/or other individuals.

3. Other Administrative Standards and Provisions

Except as specifically provided in this SGA, DOL/ETA's acceptance of a proposal and an award of Federal funds to sponsor any programs(s) does not provide a waiver of any grant requirements and/or procedures. For example, the OMB Circulars require that an entity's procurement procedures must ensure that all procurement transactions are conducted, as much as practical, to provide open and free competition. If a proposal identifies a specific entity to provide services, the DOL's award does not provide the justification or basis to sole source the procurement, i.e., avoid competition.

4. Special Program Requirements

A. Evaluation

DOL may require that the program or project participate in an evaluation of overall performance of ETA grants and/or impacts on participants. Therefore, as a condition of award, the grantee is required to cooperate with any evaluation of the program DOL may undertake.

B. Performance Goals

Please note that applicants will be held to outcomes provided and failure to meet those outcomes may have a significant impact on future grants with ETA.

C. Reporting

Grantees must agree to meet DOL reporting requirements. Quarterly financial reports, quarterly progress reports, and MIS data must be submitted by the grantee electronically. The grantee is required to provide the reports and documents listed below:

1. Quarterly Financial Reports

A Quarterly Financial Status Report (ETA-9130) is required until such time as all funds have been expended or the grant period has expired. Quarterly reports are due 45 days after the end of each calendar year quarter. Grantees must use DOL's Online Electronic Reporting System and information and instructions will be provided to grantees.

2. Quarterly Narrative Progress Reports

The grantee must submit a quarterly narrative progress report within 45 days after the end of each calendar year quarter. The report must include quarterly information regarding grant activities. This report must provide a detailed account of activities undertaken during that quarter. The quarterly progress report should be in narrative form and should include:

- i. In-depth information on accomplishments, including project success stories, upcoming grant activities, and promising approaches and processes.
- ii. Progress toward performance outcomes, including updates on product, curricula, and training development.

3. Quarterly Performance Reports

Organizations must submit updated data on enrollment, services provided, placements, and outcomes within 45 days after the end of each quarter. The report must include quarterly information on grant activities. The last quarterly performance report

that grantees submit will serve as the grant's Final Performance Report. This report will be generated and submitted electronically through a government-procured, Web-based Case Management and Performance Reporting system that will be provided at no charge to all grantees. Grantees will be required to have industry-standard computer hardware and high-speed Internet access in order to use this system. Grant funds may be used with the prior approval of the Grant Officer to upgrade computer hardware and Internet access to enable projects to use the system for case management and performance reporting.

DOL will provide grantees with formal guidance about the data and other information that is required to be collected and reported on either a regular basis or special request basis. Grantees must agree to meet DOL reporting requirements.

4. Record Retention

Applicants must be prepared to follow Federal guidelines on record retention, which require grantees to maintain all records pertaining to grant activities for a period of not less than three years from the time of final grant close-out.

VII. Agency Contacts

For further information about this SGA, please contact Kia Mason, Grants Management Specialist, Division of Federal Assistance, at (202) 693-2606. Applicants should e-mail all technical questions to mason.kia@dol.gov and must specifically reference SGA/DFA PY 12-02, and along with question(s), include a contact name, fax and phone number. This announcement is being made available on the ETA Web site at <http://www.doleta.gov/grants> and at <http://www.grants.gov>.

VIII. Additional Resources of Interest to Applicants

A. Prospective Applicant Webinar

A pre-recorded Prospective Applicant Webinar is available on-line at www.workforce3one.org and available for viewing after February 8, 2013. While a review of this webinar is encouraged, it is not mandatory.

B. Instructions for identifying city or town level unemployment data using the American Fact Finder:

1. Go to <http://factfinder2.census.gov/faces/nav/jsf/pages/index.xhtml>. For best results, use Mozilla Firefox 3.6 and Internet Explorer 7. Mozilla Firefox 3.6 can be downloaded for free at <http://www.mozilla.org/en-US/firefox/all-older.html>.
2. Use the **Quick Start** feature of the tool. This feature is in the middle of the Main page. Type **S2301 EMPLOYMENT STATUS** in the **topic and table name box** and the city and state in which the community you serve are located in the **state, county or place box**. Click "Go."
3. In the **Search Results** pane on the right hand side of the page, select Table **S2301 EMPLOYMENT STATUS** for the most recent ACS 1-year, 3-year or 5-year estimates. If the 1-year estimates are not available, use the most recent 3-year or 5-year estimates. Then, click "View" to load the selected table.

4. Use the **Unemployment rate** estimate for population ages 16 to 19 years and ages 20 to 24 years to provide an average of the two rates in the targeted area(s).

C. Instructions for identifying city or town level poverty data using the American Fact Finder:

1. Go to <http://factfinder2.census.gov/faces/nav/jsf/pages/index.xhtml>. For best results, use Mozilla Firefox 3.6 and Internet Explorer 7. Mozilla Firefox 3.6 can be downloaded for free at <http://www.mozilla.org/en-US/firefox/all-older.html>.
2. Use the **Quick Start** feature of the tool. This feature is in the middle of the Main page. Type **S1701 POVERTY STATUS IN THE PAST 12 MONTHS in the topic and table name box** and the city and state in which the community you serve is located in the **state, county or place box**. Click “Go.”
3. In the **Search Results** pane on the right hand side of the page, select Table **S1701 POVERTY STATUS IN THE PAST 12 MONTHS** for the most recent ACS 1-year, 3-year or 5-year dataset. If the 1-year estimates are not available, use the most recent 3-year or 5-year estimates. Then click “View” to load the selected table.
4. Use the **Percent below poverty level estimate** for total population (designated in the table as “Population for whom poverty status is determined”) to provide the poverty rate(s) for each target area(s).

D. Instructions for identifying graduation rate data using Edweek:

Using data found at <http://www.edweek.org/apps/gmap/>, determine the graduation rate for the target communities to be served by following the instructions provided below.

1. The site allows you to search by county, zip code, or the name of the school district. We suggest typing in the name of the city in which you propose to serve in the **District** fill-in box.
2. Then click on the Search button, the name of the district(s) that match your search criteria will appear to the left of the map, or you will see a push pin marker pop up on the map with an underscored link to the report. If you do not see the push pin marker, click on the name of your district in the frame to the left of the map.
3. Click on the underscored link to the report that appears on the map.
4. The graduation rate for all students in the school district will appear in the middle of the report under the heading “Graduation Analysis.”

For large municipalities such as, for example Los Angeles, California:

1. Type the name of the city in the county fill-in box.
2. Then click on the tab Districts on the Map and a list of school districts in the city should appear.
3. Next click on the specific school district
4. Finally follow steps 3 and 4 of the instructions above.

E. Web-Based Resources

DOL maintains a number of web-based resources that may be of assistance to applicants. For example, the CareerOneStop portal (<http://www.careeronestop.org>), which provides national and state career information on occupations; the Occupational Information Network (O*NET) Online (<http://online.onetcenter.org>) which provides occupational competency profiles; and America's Service Locator (<http://www.servicelocator.org>), which provides a directory of our nation's American Job Centers.

F. Industry Competency Models and Career Clusters

ETA supports an Industry Competency Model Initiative to promote an understanding of the skill sets and competencies that are essential to an educated and skilled workforce. A competency model is a collection of competencies that, taken together, define successful performance in a particular work setting. Competency models serve as a starting point for the design and implementation of workforce and talent development programs. To learn about the industry-validated models visit the Competency Model Clearinghouse (CMC) at <http://www.careeronestop.org/CompetencyModel>. The CMC site also provides tools to build or customize industry models, as well as tools to build career ladders and career lattices for specific regional economies.

Career Clusters and Industry Competency Models both identify foundational and technical competencies, but their efforts are not duplicative. The Career Clusters link to specific career pathways in sixteen career cluster areas and place greater emphasis on elements needed for curriculum performance objectives; measurement criteria; scope and sequence of courses in a program of study; and development of assessments. Information about the sixteen career cluster areas can be found by accessing: <http://www.careertech.org/career-clusters/>.

G. Resources

1. ETA encourages applicants to view the information gathered through the conference calls with Federal agency partners, industry stakeholders, educators, and local practitioners. The information on resources identified can be found on Workforce3One.org at: <http://www.workforce3one.org/view/2001008333909172195/info>
2. ETA encourages applicants to view the online tutorial, "Grant Applications 101: A Plain English Guide to ETA Competitive Grants," available through Workforce3One at: http://www.workforce3one.org/page/grants_toolkit.

H. Industry-Recognized Credential

All training must lead to the award of at least one industry-recognized credential. Driver's licenses, CPR, work readiness and OSHA certificates will not count towards the credential attainment performance measure. See Training and Employment Guidance Letter (TEGL) 17-05 and TEGL 15-10 for additional information on industry recognized credentials. These TEGLs are available at the below links:

- http://wdr.doleta.gov/directives/corr_doc.cfm?DOCN=2195; and
- http://wdr.doleta.gov/directives/corr_doc.cfm?DOCN=2967.

IX. Other Information

OMB Information Collection No. 1225-0086

OMB Information Collection No 1225-0086, Expires January 31, 2013.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. Public reporting burden for this collection of information is estimated to average 20 hours per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments about the burden estimated or any other aspect of this collection of information, including suggestions for reducing this burden, to the U.S. Department of Labor, to the attention of the Departmental Clearance Officer, 200 Constitution Avenue NW, Room N1301, Washington, DC 20210. Comments may also be emailed to DOL_PRA_PUBLIC@dol.gov. PLEASE DO NOT RETURN THE COMPLETED APPLICATION TO THIS ADDRESS. SEND IT TO THE SPONSORING AGENCY AS SPECIFIED IN THIS SOLICITATION.

This information is being collected for the purpose of awarding a grant. The information collected through this "Solicitation for Grant Applications" will be used by the Department of Labor to ensure that grants are awarded to the applicant best suited to perform the functions of the grant. Submission of this information is required in order for the applicant to be considered for award of this grant.

Signed January 17, 2013, in Washington, D.C. by:
Steve Rietzke
Grant Officer, Employment and Training Administration

Attachment A: Checklist for Part III. Attachments to the Technical Proposal

Required Attachments	Previously-Funded Applicant	New Applicant
a. Two-Page Abstract	✓	✓
b. Work Site Form (ETA-9143)	✓	✓
c. Organizational Chart	✓	✓
d. Program Calendar	✓	✓
e. Partner Commitment Letters	✓	✓
f. Project Performance Site Location	✓	✓
g. Non-DOL Past Performance Chart		✓
h. Most Recent Financial Audit/Management Letter		✓
i. Construction Training Plan		✓

Attachment B: Construction Training Plan Sample Template

Sections of Training Plan	What To Include
Introduction	This is a brief summary of the training project and how it will be used for project implementation.
Training Scope Including Objectives, Goals and Assumptions	This section includes the major objectives for the training project along with the goals and any assumptions made related to implementation.
Training Strategy and Technology-Based Interventions Selected	This section should describe the applicant’s training strategy along with the technology-based interventions they will be using to enhance the delivery of education and training programs. Strategies related to the use of technology may include, but are not limited to: interactive simulations; online diagnostics, assessments, skills mapping, and computer-aided design (CAD); personalized instruction; asynchronous and real-time collaboration among, as well as between program participants, and instructors; and provide continuous feedback to the program participants and instructor in order to automatically identify and remediate individual student learning deficits.
Roles and Responsibilities	This section includes a discussion of those who are supporting the implementation of the construction training, including the specific tasks that are needed to successfully launch, deliver, and sustain the training. This is a subset of the training task from the project plan and should provide the very detailed tasks needed to complete the training including the start and end dates for each.
Contingency Plan	This section outlines how training will be implemented and sustained despite barriers and problems that emerge. The training for this grant must begin expeditiously and this contingency plan allows for alternate training to be implemented, if necessary.
Training Materials, Design, and Standards	This section describes the materials that will be used during the training courses, how and who will design the materials, and a quality control process for ensuring materials are up-to-date, accurate, and effective.
